

2026 NSR Winter Type Conference/NJSA Winter National

Rules and Health Regulations

With heightened awareness and concerns surrounding foreign animal diseases (FADs), following all health requirements is critical. Veterinarians and exhibitors must take extra precaution to ensure the health of their animals. All animals attending NSR Winter Type Conference/NJSA Winter National must be inspected by a licensed and accredited veterinarian before departing for the show.

Failure to meet all animal health requirements will result in removal of animals from the exhibition premises. Once regulatory officials confirm health exhibition requirements are met, the NSR/NJSA Winter National staff are authorized to make the final determination of an animal's eligibility for exhibition.

The following animals are not eligible for exhibition in Georgia:

- Animals that originate from a herd that is under quarantine
- An animal prohibited from exhibition under any law or order
- Any animal classified as a brucellosis "suspect"
- Animals showing signs of any infectious or communicable disease or that are a health hazard to people or other animals
- Any animal that does not meet Georgia animal health requirements

Any animal that develops or shows signs of any infectious or communicable disease during exhibition must be removed from the premises, including the surrounding exhibition grounds.
