NJSA PUREBRED INFLUENCED Crossbred Classes

All NJSA shows will have Purebred Influenced Crossbred classes. This includes the Winter National, The Exposition and National Junior Summer Spectacular, in addition to each of the Regional Shows.
Additionally, these animals will be eligible to show and potentially sell in the crossbred portion of the open show at NSR events.

REQUIREMENTS:

1. A documented parent (sire or dam) that is Duroc, Hampshire, Landrace, or Yorkshire. If utilizing a purebred sow, a DNA sample must be submitted to verify parentage.

   The use of a purebred sire would meet the same requirements as members recording a purebred litter, therefore, purebred sires should already have a DNA sample on file.

2. **The animal(s) must be recorded in the NSR Crosscheck Verification Program and documentation provided at the time of check-in. To register your animal in the Cross Check registry, click the link:** *https://form.jotform.com/251694504883163*

3. Animals that may not meet purebred breed eligibility requirements but still maintain a pedigree would be eligible to show in this division (ie. short underlines, off-belted Hampshires, etc.)

   Top 5 animals will be required to pass parentage testing to receive premiums.
