Many times, in recent years, I have mentioned the 1998 Long Range Strategic Plan and how it has served as the road map for the National Swine Registry (NSR) since its inception.

At the 2015 Youth Advisory Board (YAB) Meeting, there was much discussion about the need to focus on the future of the National Junior Swine Association (NJSA), what the needs of the members would be in 2020 and how the NSR could best facilitate the needs of a new generation of members. After disseminating information from the YAB to the NSR Executive Committee we realized how intertwined youth and breeding animal shows and sales are. Thus NSR Executive Committee elected to accept a proposal, from Kevin Ochsner, to facilitate a much needed strategic plan, for the future of the National Swine Registry.

I think back to the meetings and discussions that were held during the Long Range Strategic Plan, from the late 90s. Have you taken time to think about the industrialization that has taken place in the swine industry since that time? You no longer see swine operations at every farmstead while traveling down the county roads, as you did in the past. A one hundred sow operation could not provide a living for the producer and his family.

Kevin dug deeper into the research by conducting phone calls to members throughout the United States, and by evaluating the results from the online survey questions. It was apparent that the majority of the NSR membership no longer made their living by producing purebred stock (boars and gilts that could go into a commercial operation), but by having 10 sows and producing animals that could be shown by their sons and daughters, or by offering these animals to junior exhibitors and their families, as projects for local, county, state and national events.

There is a real opportunity for the NSR through the NJSA to offer educational programs that provide information to these young people and their families to assist them in producing the best purebred genetics and to educate them.

I want to thank Kevin Ochsner for his leadership and his ability to keep the Long Range Strategic Plan Task Force focused on their assignment. Thanks to Dr. Brett Kaysen for serving as the Chairman of this Task Force. To Everett Forkner, Scott Lawrence, Wayne Huinker, Jennifer Shike, Earl Cain, Randy Bowman, Craig Spray, Dr. Todd See, Dr. Nick Berry and Jesse Heimer, we are truly indebted to your commitment to the future of the National Swine Registry.

The National Swine Registry Executive Committee has accepted the Long Range Strategic Plan and Kevin Ochsner presented this plan during the NSR Annual Meeting March 21, in West Lafayette. Be watching for more information as we move forward to providing these services to our NSR and NJSA members.

― Steve Maraboli

Last month, I provided an overview of each scholarship the NJSA offers our junior members, with the exception of the Maschhoffs Pork Production Scholarship. This scholarship not only rewards the winner’s with financial support in school, but it also consists of a four day internship that gives each winner an opportunity to tour Maschhoff’s headquarters and learn about their family ran company. Instead of me highlighting the scholarship and the internship that is tied to it, I asked a past scholarship recipient to share her experience. Below Hannah Zundel, past NJSA Junior Board member, shares her experience.

If we flash back to the 2016 National Youth Leadership Conference, Brian Arnold, former National Swine Registry (NSR) Vice President of Member Outreach and Youth Development, asked our large group of participants, guests, and chaperones: “Would the pork industry know if we disappeared?” Many of us contemplated this question, as we had just been told by Ed Tice, with Tyson Meats, “If every showpig raised annually was harvested in one day, they would be harvested in less than two hours with total shackles available nationwide.” So would they? Yes! The Maschhoff family and their company are firm believers of just that.

The Maschhoffs are wonderful sponsors and advocates for the National Junior Swine Association (NJSA). The company began in 1851 as a family farm located in Illinois. Since then they have grown into one of the largest family owned hog farming networks in the United States. Alongside their partners, they produce enough pigs to feed 16 million consumers annually. The Maschhoffs are committed to the NJSA because as Randy Bowman, The Maschhoffs Associate Director of Genetics & Multiplication, stated, “The NJSA is helping build those leaders we need in not only the pork industry, but the entire agriculture industry.” The Maschhoffs are avid supporters of the NJSA and offer up to five, $1,000 scholarships annually. This scholarship also comes with a four day internship packed with great speakers and an in-depth look into the Maschhoffs’ company.

Devin Ammann, Lindsey Robinson, Jared Wellik, and I were the 2016 scholarship recipients. We made our journey to the Maschhoffs over winter break to complete our internship. After our interviews with some of the team members at Maschhoffs, we knew we were in for an exciting and educational experience. We were given the opportunity to hear from multiple speakers on topics such as genetics, nutrition, public relations and many others. We toured various barns, the feed mill and enjoyed local cuisine of Carlyle, Ill.

We had the pleasure to meet members of the Maschhoff family, including co-owner, Ken Maschhoff. It should be noted that Ken was recently elected as the President of The National Pork Producers Council. Even with his busy schedule, he took time to get to know us, our future plans and requested our opinions regarding leadership within the pork industry. We sat down with employees of Maschhoffs to determine how to better highlight the industry to NJSA members.

The passion the employees have for not only the Maschhoff company, but also the pork industry, was invigorating. We were extremely grateful to spend time with these delightful and awe-inspiring people at the Maschhoffs. This scholarship program allowed us to not only meet the incredible team members of Maschhoffs, but also grasp a better understanding of the commercial swine industry. The team was great to work with, and made sure we got to investigate the topics and jobs that interested us, no matter how diverse. We would all HIGHLY recommend everyone who is eligible to sign up for this amazing opportunity!

The Maschhoffs Pork Production Scholarship is due to the National Swine Registry office on May 1st. For applications and more information about this scholarship, please visit nationalswine.com.
Hello one and all out there in Seedstock EDGE land. Wow oh wow, am I thankful that our major showpig season is over here in Texas. I am typically not really ready for it to be over, but this year was a struggle. We had such a difficult time getting hogs to convert or even stay healthy. Now you may be saying, “Ray isn’t this a spiritual article? Why are you whining about your showpigs?” Well I’m glad you asked, because it fits perfect with Luke 18 and the parable of the persistent widow. Verse five, in this parable, tells us that the judge finally gave up because this lady was never going to quit! I want each of you who are reading this article today to understand the importance of never giving up on God’s promises. Sometimes it gets very difficult and seems like nothing is working or going right. I challenge you to hold on to God’s promise and know HE HAS NEVER BROKEN ONE YET! So in short, if your life seems like it’s not converting like it should on the good feed ration, just hang in there because God’s feed will always produce banners in your life, if you have the courage to hang on.

We love each of you and if you ever need us please feel free to call us or contact us via our website shortroundministries.org.

In Him,

Ray Perryman and family
Print is not dead

It seems like everywhere you look these days, people are walking and unfortunately, driving around with their heads down and eyes glued to their phones. Their fingers are flying across the screen and they are oblivious to their surroundings. You can shout, “FIRE!” but unless it comes across their screen, nobody seems to hear anymore.

So how do you get people, in this day and age, to listen to you and your message? No really, I’m asking you that question because I don’t know if I have the right answer myself. However, what I do know is that print advertising is not dead.

I’m sure some of you have read over the last few years how, “Print is dead!” We have all seen newspapers and magazines either cut costs by changing formats, number of times printed or stop production all together. That is the impact of how people consume information in this day and age.

Now, I’m not here to say that the digital realm is “evil” and everyone should go back to print advertising. Social media, video and other digital formats should be a part of your advertising/marketing program. We find it so important here at the NSR that we hired Cassie Godwin as our Social Media Coordinator. She sends out the day-to-day vital information that our membership needs to know now, without having to wait for the Seedstock EDGE to mail. This is critical for time-sensitive information, or changes to already published material. Just like us, many of you are doing the exact same thing with your digital footprint.

However, with the volume of digital content coming out today, your message can get lost in the flood that everyone gets in their inbox and notifications. That is where I believe printed material can help you stand out from all the noise.

A well thought out print advertisement can have a major impact on your marketing plan by allowing customers to literally hold you in their hands. With a one, two or even a half page ad, the viewer is treated to a large, colorful, eye-pleasing experience that gets your message across without anyone else competing for attention, like you get online.

Print advertising is your chance to be really creative with your design. There are many constraints on what you can do digitally since you have to make sure it looks good on different phones, operating systems, screen sizes, security settings, etc.

Print is not dead – not even on life support. Print is your chance to stand out now that the world is full of ones and zeroes.
Select pork cuts that are dark pink to dark reddish pink in color with firm, white fat. Choose wrapped packages without any tears, holes or leaks. There should be little or no liquid in the bottom of the tray.

The National Pork Board recommends cooking pork chops, roasts and tenderloin to an internal temperature between 145°F (medium rare) and 160°F (medium), followed by a 3-minute rest.

Spareribs & St. Louis Style Ribs

**COOKING METHOD**
- ROASTING (Roast at 350°F, unless otherwise noted. Roast in a shallow pan, uncovered.)
- BARBECUING (Over indirect medium heat - 285°F)
  - BRAISING (Cook, covered, with a liquid at a simmer)

Pork Belly (Cured/Uncured)

**COOKING METHOD**
- ROASTING (Multiple time and temperatures.)
- BRAISING (Cook, covered, with a liquid at a simmer)
- FRYING (Slice and fry over medium heat)
Boleman named Executive Director at the Houston Livestock Show & Rodeo

Texas 4-H Youth Development leader and program director, Chris Boleman, Ph.D., has been named executive director of agricultural competitions and exhibits at the Houston Livestock Show and Rodeo.

Boleman joins the Houston Livestock Show and Rodeo after a nine-year career with the Texas 4-H Youth Development Program. As assistant agency director and state 4-H leader, Boleman was responsible for all statewide Texas 4-H educational efforts. In this position, he oversaw 27 Texas 4-H faculty members.

Under his direction, and with the support of more than 25,000 volunteers, Texas 4-H educational efforts reached more than 570,000 youth in 2016.

As an executive director for the Houston Livestock Show and Rodeo, Boleman will be responsible for managing and directing all aspects of agricultural operations, competitions, exhibits and auctions at the world’s largest livestock show. He will oversee all junior and open livestock competitions, a number of record-setting auctions, and all events and activities of the Rodeo Uncorked! wine show.

An author and nationally renowned speaker, he holds both bachelor’s and master’s degrees in animal science and a doctoral degree in agricultural education, all from Texas A&M University.

SIEBER JOINS USLGE

The Board of Directors of U.S. Livestock Genetics Export, Inc. is pleased to announce the hiring of Dr. Martin Sieber effective January 16, 2017. Martin will work under the direction of President/CEO Michael A. Phillips for a short transition period and then upon Mike’s retirement succeed him as USLGE President and Chief Executive Officer.
Martin brings expansive knowledge of animal breeding, international livestock marketing, and USDA Foreign Agricultural Service (FAS) programs to the USLGE staff. Born and raised in Germany, he earned undergraduate and graduate degrees in animal breeding. He came to Iowa State University in 1985 as a postdoctoral research scholar, studying the relationship of conformation and yield traits in Holstein cattle. Martin’s career includes key positions in international market development with the National Association of Animal Breeders and Minitube USA as well as being founder of AgDevelop, an independent consulting firm for international agricultural market development. His work with livestock producers, international export and import companies, agricultural ministries, and U.S. embassies extends to more than 75 countries.

Mike Phillips completed 23 years as the founding President of USLGE at its 2017 annual meeting in Columbus, OH. From a mere 6 members in February 1994, Mike has guided the growth and development of USLGE as an FAS cooperator to include 54 organizations representing all sectors of the U.S. livestock and genetics business plus state Departments of Agriculture, individual seedstock producers, and exporters. He has worked tirelessly to champion the U.S. livestock industry and connect USLGE members with producers and government personnel across the globe. USLGE has been incredibly fortunate to have such a leader and advocate who is widely respected around the world.

NSR NEWS

2017 NSR Annual Meeting

The National Swine Registry Annual Meeting in West Lafayette, Ind., was held on March 21, 2017, at the Four Points by Sheraton Hotel. At noon the NSR Awards Luncheon began followed by a presentation by Kevin Ochsner, Long Range Plan Facilitator. His presentation was a summery of the Long Range Strategic Plant that had been approved by the NSR Executive Committee early that morning. You can view what was contained in that presentation in the NSR Annual Report section of this issue. Ochsner’s presentation was followed by NSR staff presentations and the presentation of Top-Recorder Awards. At 3:30 p.m. the Annual Membership Meeting was adjourned and the individual breed boards went into their meetings.

Shrader joins NSR staff

The National Swine Registry welcomed Morgan Shrader to the team, in April, as the Director of Development. In her new role, Shrader oversees programs, events, and donor relations that support the NSR foundation as well as the NJSA association.

Morgan attended Iowa State University where she received her bachelor’s degree in agricultural business and agronomy. While at Iowa State, she was a member of the National Agri-Marketing Association Team and Agricultural Business Club. Prior to her time at NSR, Shrader had several internships in the seed industry, as well as held various roles in sales and marketing for DuPont Pioneer.

Showing livestock built Shrader’s passion and love for agriculture; which she is excited to share with the NSR organization. Outside of the office, she enjoys spending time with her family and friends, attending livestock shows, listening to Garth and hunting in the woods.

To submit announcements for FYI, contact steve@nationalswine.com.
Layna Bond
NJSA Intern

Layna Bond knew her passion for showing pigs would lead her to a career in the swine industry. She grew up on a small family farm where she raised and showed pigs at state level. Additionally, she showed cattle at state and national levels. In high school, Bond was very active and successful in FFA from being an officer and competing in CDEs to being named a State Star Farmer, of Illinois. After high school, Bond attended Lake Land College in Mattoon, Ill., where she obtained an associate’s degree in agriculture. While at Lake Land College, Bond was a member of the Livestock Judging Team, a Student Ambassador and a member of the Agriculture Transfer Club. Currently, she is a junior at Oklahoma State University majoring in animal science-business with a minor in agricultural economics. Bond is a member of the Livestock Judging Team, Swine Club and Block and Bridle. She feels that the best part about her internship will be getting the opportunity to work with youth in the swine industry since they play such a vital role in the future of our industry. Bond feels that being able to share her passion, for this industry, during this internship is something that she will cherish forever.

Will Taylor
Fieldstaff Intern

Growing up Will Taylor was an active member of his FFA Livestock Judging Team, showed pigs for six years in 4-H and enjoyed traveling to shows such as WPX, NJSS and NAILE. Taylor has also enjoyed being a NJSA member.

Taylor is a 2016 graduate of Lincoln Land Community College with an Associates of Science with a focus in agriculture. He currently is attending Western Illinois University where he is studying ag science with minors in ag economics and animal science. Taylor is currently a member of the Western Illinois Livestock Judging Team and involved in the Honors College, as well as the Hoof ‘N Horn club.

Taylor said he is excited about the opportunity to network and get to know purebred breeders across the country and he looks forward to building relationships with and among these NSR members.

BIRTHS

COOPER SCOTT GARLISCH
Dec. 13, 2016
Scott and Brandy Garlisch, with Garlisch Showpigs, in Forest City, Ill., welcomed an early arrival of their son, Cooper Scott on Dec. 13, 2016. Cooper entered this world weighing 5 pounds, 8 ounces and was 18.5 inches long.

CAMDEN THOMAS PLATT
Jan. 5, 2017
Proud parents Travis and Adrienne Platt and big brother Brantley are happy to announce the birth of Camden Thomas Platt who was born Jan. 5, 2017, in Fort Wayne, Ind. Camden weighed 7 pounds, 4 ounces and was 22 inches long. He is welcomed by grandparents John and Marilyn Platt, Greg and Patty Thompson and Ken and Connie Rickard.

RAINEY MAY BAILEY
Feb. 14, 2017
Jason and Leah Bond Bailey would like to announce the birth of their daughter Rainey May Bailey. Rainey was born on Feb. 14, 2017, at 9:19 p.m. and has an older sister Naudia at home. Grandparents are Mike and Debra Bond, Overbrook, Kan., and Gene Bailey, Fort Scott, Kan., and Lora Bentley, Clearwater, Kan.
OBITUARIES

MIRRANDA M. KNOTTS
1995-2017

Miranda Michelle “Randee” Knotts, 21, of West Lafayette, passed away on Sunday, March 5, 2017. Born April 13, 1995, in Lafayette, she was the daughter of Curt and Tracie (Vandewalle) Knotts. Randee graduated from Benton Central High School in 2013 and earned her associates paralegal degree, from Ivy Tech Law School, in 2016. She worked for Kirk Freeman Attorney at Law. Randee was active with the Youth Group at the United Methodist Church in Otterbein, was a 10 year 4-H member in Tippecanoe County, and showed Young and Guard Hampshires, both locally and nationally, for over 10 years. Surviving with her parents, Curt and Tracie Knotts, is her brother, Morgan Knotts; paternal grandparents, Jerry and Pat Knotts of Zionsville, and Janice Knotts of Tallahassee, FL; maternal grandparents, Dave and Sharon Vandewalle of South Bend; paternal great grandmother, Ida Knotts of Zionsville; aunts and uncles, Kate Burner of Tallahassee, FL, Eric and Suzie Vandewalle of Avon, and Amy and Steve Ruloph of Otterbein; and cousins, Sam and Molly Bruner, Gracie and Eve Bruner, Addison and Juliet Vandewalle; and Samantha and Grady Rudolph. Memorial visitation will be held from 1 p.m. until the time of memorial service at 6:30 p.m., Thursday, March 9, 2017 at Otterbein United Methodist Church, with Pastor John Randall officiating. Memorial contributions may be made to the Mirranda’s Hampshire Scholarship GoFundMe. Share memories and condolences online at hippensteelfuneralservice.com.

RALPH EDWIN DOAK
1948-2017

Ralph Edwin Doak, 68, of Wilmington, Ohio passed away Friday, March 17, 2017. His wife, Becky Bowermaster Doak, survives. They were married January, 12, 1974. Mr. Doak was born November 23, 1948, in Clinton County, Ohio, son of the late Robert and Margaret Gibson Doak. He was a 1966 graduate of Wilmington High School. Mr. Doak served as a field representative for the United Duroc Swine Registry and the National Swine Registry. He dedicated the majority of his life to bettering the purebred swine industry and the people in it. He was also a longtime Clinton County farmer and raised purebred swine. In addition to his wife, Mr. Doak is survived by two daughters, Rachel (David) Swartz of Bishop, Georgia and Amy Doak of Wilmington, Ohio; two nephews, Rex Doak and Matt Doak; a niece, Rhonda Curtis; and four grandchildren. In addition to his parents, a brother, Wilbur Doak, a sister, Miriam Deck, a brother-in-law, David Deck, and a nephew, Michael Deck, are preceded in death. A graveside service will be held at the convenience of the family. A public celebration of Mr. Doak’s life will be held at a later date. In lieu of flowers, memorial contributions may be made to the Buckeye Barrow Boosters, c/o Kevin Kremer treasurer, 5137 U.S. Route 6, Vickery, OH 43464 or the National Junior Swine Association, 2639 Yeager Road, West Lafayette, IN 47906.

Advertise with Seedstock EDGE!

To advertise contact: 765.463.3594
seedstockedgedge@nationalswine.com

Published nine times a year, Seedstock EDGE brings you the latest information about shows and sales in the purebred swine industry, as well as production tips and trends.
Q: What do I need to bring to check-in?
A: To ensure a smooth check-in, please bring the necessary copies of your pedigrees, a copy of your PQA certification, and the original, vet stamped copy, of your Certificate of Veterinary Inspection (CVI).

Q: How many copies do I need of my pedigree?
A: If you are showing in the junior show only, you will only need to bring one (1) copy of your pedigree. If you are showing in both the junior and the open show, then you will need two (2) copies of the pedigree.

Q: How many copies do I need of my Certificate of Veterinary Inspection (CVI)?
A: Please do not bring excess copies of your CVI to registration. Copies will need to be made after the veterinarian has signed the CVI during the vet check upon your arrival.
If you are showing in the junior show only, you will only need to bring one (1) copy of your CVI per animal through check-in.
If you are showing in the junior show and the open show, you will need to bring three (3) copies of your CVI per animal through check-in.
If you are showing in the open show, you must turn in your original CVI at that time. You will turn in copies of your CVI for the junior show.

Q: What do I need to bring to check-in to qualify for the Hampshire Sired Crossbred Barrow Division?
A: You must bring a filled out Hampshire Sired Barrow Form, which can be found on the National Swine Registry’s website: nationalswine.com. This form must be filled out completely and turned in to qualify for the Hampshire sired division.

PQA/YQCA TRAINING

Q: Do I have to be PQA certified to show at the World Pork Expo Junior Nationals?
A: Yes. You must bring your certification card with you to check-in. If you have lost this card, you can contact the National Pork Board at 800.456.7675.

Q: Are there any state certification programs that are equivalent to PQA training?
A: Yes. The following states offer a certification program that is accepted as PQA: Iowa, Kansas, Missouri, Nebraska, Ohio, Texas, Virginia and Wisconsin.
If you are certified in any of these states, you are required to bring proof of that certification to check-in. If you cannot provide proof, then you will be required to take the PQA training in order to show.

Q: Will there be Youth PQA trainings available at the World Pork Expo?
A: No, there will be no in person Youth PQA trainings. This training is available online at pork.org/certification.

Q: Will there be Adult PQA trainings available at the World Pork Expo?
A: Yes. There will be an adult training on Monday, June 5, at 4 p.m.

Q: Is the Adult PQA training available online?
A: Yes! If you have a valid Adult PQA Plus certification, then you are welcome to renew your certification online.

HAMPSHIRE SIRED CROSSBRED DIVISION

Q: What is the Hampshires Sired Crossbred Barrow Division?
A: The Hampshire Sired Crossbred Barrow Division was created to provide an opportunity for crossbred barrows sired by a purebred Hampshire boar.
Q: How do I qualify for the Hampshire Sired Crossbred Barrow Division?
A: In order to show in the Hampshire sired division, you must also show a purebred barrow.

Q: How do I enter the Hampshire Sired Crossbred Barrow Division?
A: You will enter this division the same way you would enter a crossbred barrow.

Q: How many crossbred barrows can I show?
A: In order to show a crossbred barrow or a Hampshire Sired Crossbred Barrow, exhibitors must show one (1) purebred barrow. Each exhibitor may only show two (2) crossbred barrows. Hampshire Sired Crossbred Barrows are included in this two (2) limit.

ARRIVAL/DISMISSAL QUESTIONS
Q: Where do we enter the fairgrounds to line up to unload?
A: There will be clear signage at the Iowa State Fairgrounds telling trailers where to come in. Be looking for more information regarding arrival in the exhibitor letter that will be mailed prior to the show.

Q: When are exhibitors allowed to load up their animals and leave?
A: Exhibitors and their animals are released to leave at 2 p.m. on Friday, June 9. Exhibitors that load up and leave prior to this will be barred from showing at any NJSA events for a year.

BRED AND OWNED QUESTIONS
Q: How do I qualify for bred and owned?
A: In order to qualify for the Bred and Owned Division, the exhibitors’ first and last name must be listed on the pedigree as the owner and breeder. There may be multiple names listed, as long as the additional names are under the age of 21 and from the same residence*.

*This is the last NJSA event where the name listing mentioned above will be accepted. Beginning July 1, there can only be one (1) junior member listed as the breeder and the owner to be eligible for the Bred and Owned Division.

FEDERALLY RECOGNIZED EAR TAGS AND PREMISE IDENTIFICATION QUESTIONS
Q: What is a federally recognized ear tag?
A: An official ear tag is a source of animal identification that, with accurate movement records, provides the ability to trace animals to their origin.

This capability is critical in the event of an animal disease emergency to help locate what points the animal has been in contact with.

Anyone who purchases federally approved ear tags will be required to submit their Premise Identification (Premise ID) number when ordering. The Premise ID number will then be recorded in a database.

Q: What is Premise Identification?
A: Premise ID is part of the Animal Disease Traceability Framework (ADT) that is designed to help identify animals to the locations they have been raised on or passed through during their lives. This number along with accurate movement records can serve as a critical piece of information in quickly tracing back an animal to a location in the event of an animal health emergency.

When registering a Premise ID, the producer’s contact information (name, address, phone for primary and secondary contacts) will be recorded.

Q: How do I obtain a Premise ID number?
A: Obtaining a Premise ID number is typically a very simple process that involves contacting your state animal health agency.

GENERAL QUESTIONS
Q: Will shavings be provided?
A: There will be one (1) bag of shavings provided in each pen. Additional shavings can be brought as tack with the exhibitor, or shavings will be available for purchase on the fairgrounds.

Q: How will pens be assigned?
A: Pens will be assigned upon arrival. Animals will be penned two (2) pigs per pen, regardless of the amount of entries made. If siblings have an odd number of pigs, they will be required to share a pen. For example, Jane brings three (3) pigs and her brother Joe brings one (1) pig, then they will only receive two (2) pens as a family.

Make sure to bring pen dividers.

Pens vary in size between the sheep and swine barn; however, the average pen size is 6 ft. x 6 ft.

Q: Can we pen with our friends and family?
A: If you would like to be penned with a group of people, make sure that you arrive, to the fairgrounds, at the same time.

Q: Do we have to submit DNA to show?
A: DNA is not required to show at NJSA events. Champion and Reserve Champion animals will have DNA samples taken upon the completion of the show.
To the Active Members of the
National Swine Registry

Mike Paul
Chief Executive Officer

It is my pleasure to present the following information as a combined annual report of the National Swine Registry, an LLC partnership comprised of the American Yorkshire Club, Hampshire Swine Registry, United Duroc Swine Registry and the American Landrace Association. This marks the 18th year that all four breeds have operated under the NSR umbrella, as the American Landrace Association officially joined on Jan. 1, 1998. The Yorkshire, Duroc and Hampshire associations each represent a 30 percent interest in the financial affairs of the NSR, while Landrace are represented at 10 percent. Collectively, these four breeds represent more than 80 percent of the purebred hog registrations in the country, and are incorporated into the breeding schemes utilized by commercial swine production throughout the world.

The lifeblood of this organization is the result of the dedication and commitment demonstrated by the members recognized in this report. In this report, you will find a listing of the top junior and senior recorders for each breed, as well as the top STAGES™ recorders and state activity comparisons. Our STAGES™ genetic evaluation program continues to grow, with records in excess of 2.4 million. The international markets are an intricate part of our membership, and we look forward to new opportunities in coming years. The National Junior Swine Association (NJSA), currently, has more than 13,764 members from 49 states plus four countries, and is recognized as one of the largest youth organizations in animal agriculture. The Seedstock EDGE is recognized as one of the leading publications in the livestock industry and offers an outstanding venue for the membership to promote their genetic programs and services.

The structure of the National Swine Registry is such that nearly all the income and expenses accrue to and flow through the organization. Therefore, this report includes an income and expense report for the NSR. The American Yorkshire Club, Hampshire Swine Registry and United Duroc Swine Registry each contributed $150,000 to the initial formation of the NSR, while the American Landrace Association contributed $50,000. The breed’s equity in the NSR is adjusted each year, depending on the profit or loss experienced by the NSR. In addition to their equity in the NSR, each breed still maintains their own investment portfolio of cash reserves. As you can see, the NSR experienced a positive cash position in 2016. Several key staff members left our employment in 2016. We were blessed to have found several outstanding individuals that will contribute to future endeavors at the NSR. The talented individuals who make up the NSR staff have the desire to make a difference within the pedigreed swine industry. With a dedicated membership and staff, we will continue to develop programs and opportunities that benefit the NSR/NJSA membership, in upcoming years.

Your NSR Executive Committee has aggressively pursued and endorsed changes in the NSR operating structure, and wants input and suggestions from you – the membership. We invite you to share any comments and/or concerns you may have about programs, services or information presented throughout this report.

Sincerely,

Michael A. Paul
CEO
Meet the Boards
At the NSR Annual Meeting held March 21, in West Lafayette, Ind., new members and officers were named to the breed boards and the NSR Executive Committee.

2017 NSR Executive Committee

Dusty Cain, Iowa
Chairman

Brett Beyers, Ill.
Vice Chairman

Scott Lawrence, Ind.

Steve Cobb, Ark.

Wayne Huinker, Iowa

Ron Iverson, Iowa

Cody McCleery, Texas

Jim McCoy, Ohio

Bill Range, Ill.

Dr. Mike Tripp, Okla.

2017 Duroc Board of Directors
(l to r): John Huinker, Iowa; Joe Roberts, Mo.; President Don R. Smith, Ohio; Chad Hill, Texas; Vice President Doug Albright, Mich.; Brett Beyers, Ill.; and Steve Rodibaugh, Ind.

2017 Hampshire Board of Directors
(l to r): President Dusty Cain, Iowa; Kyle Baade, Neb.; Vice President Brad Mortensen, Mich.; Jim McCoy, Ohio; Mike Day, Okla.; Mike Watson, Ind.
Not Pictured: Kevin Wendt, Ohio

2017 Landrace Board of Directors
(l to r): Vice President Nick Siedelmann, Iowa; President Lynsee Shaffer-Pullen, Ind.; Jonas McGrew, Ill.; Mark Korb, Ohio; and Sam Malcolm, Ind.
Not Pictured: Freddie Grohmann, Ill. and Chris Compart, Minn.

2017 Yorkshire Board of Directors
(l to r): Vice President Brady Crone, Ind.; Steve Cobb, Ark.; President Dr. Mike Tripp, Okla.; Garry Childs, Ga.; Matt Rohrig, Iowa; Dan Burzlaff, Iowa; and Broc Thompson, Ohio

<td>March 9-10</td>
</tr>
<tr>
<td>Completed final revisions to the plan and approved the plan as amended</td>
<td>March 21</td>
</tr>
</tbody>
</table>

Planning Assumptions
1. The demand for unique, livestock-based, youth development opportunities will continue
2. Disease will continue to pose a significant risk to our industry and our association
3. There will be a continued need for both youth and adults to tell the food production story
4. There will be an increasing demand for employees with an ag/livestock background
5. The entertainment value of our events will increase
6. Passion and support for youth ag programs and the show ring experience will overcome any threats posed by activists, government, etc. in attempting to shut down livestock shows/events
7. The show pig industry will remain lucrative enough to attract new investment
8. There will be a decrease in the number of boars sold at the National Type Conference, but the value of elite boars will continue to increase
## Situational Assessment

<table>
<thead>
<tr>
<th>Issues/trends</th>
<th>TRENDS</th>
<th>Implications</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Increase in external concerns about animal welfare</td>
<td>• Threatens the future of livestock shows and livestock production</td>
<td></td>
</tr>
<tr>
<td>2. Hyper-competitive society</td>
<td>• Increases the occurrence of ethical violations as people search to find a “winning edge”</td>
<td></td>
</tr>
<tr>
<td>3. Pervasive nature of social media</td>
<td>• Increases exposure – both good and bad • Increases the level of member engagement and excitement • Changes the way livestock are marketed</td>
<td></td>
</tr>
<tr>
<td>4. General population increasingly detached from production agriculture (including NJSA)</td>
<td>• Creates the need for more agricultural education • Demands that livestock producers are more transparent than ever before about food production</td>
<td></td>
</tr>
<tr>
<td>5. Increasing demand for intellectual capital in agriculture</td>
<td>• Creates opportunity for those who can effectively develop agricultural talent</td>
<td></td>
</tr>
<tr>
<td>6. Increasing risk of Foreign Animal Disease and Domestic Disease</td>
<td>• Poses a serious threat to the existence of the livestock industry and the future of livestock shows</td>
<td></td>
</tr>
<tr>
<td>7. Increased scrutiny of antibiotic use in livestock industry</td>
<td>• Will drive the need to make genetic and management changes to reduce the need for antibiotics • May hinder the ability for some to produce hogs – especially in remote areas which are underserved by vets</td>
<td></td>
</tr>
<tr>
<td>8. Improved genomic technology</td>
<td>• There will be fundamental changes in how pigs are produced</td>
<td></td>
</tr>
<tr>
<td>9. Increased demand for differentiated pork products and an increase in regional pork processing facilities</td>
<td>• May create increased opportunities for value-added pork production</td>
<td></td>
</tr>
<tr>
<td>10. Decline in the number of young people entering purebred commercial hog production programs</td>
<td>• Threatens the long-term viability of the independent, purebred breeder model</td>
<td></td>
</tr>
<tr>
<td>11. Globalization of pork industry/genetic improvement programs</td>
<td>• Creates opportunities for NSR’s genetic improvement program and associated technologies</td>
<td></td>
</tr>
<tr>
<td>12. Speed and affordability of communication technology (webcasting)</td>
<td>• Provides opportunity to communicate with and engage people all across the country and capitalize on the “entertainment value” of pig shows</td>
<td></td>
</tr>
<tr>
<td>13. Growth of shows and the junior program</td>
<td>• Creates an increased demand for show pigs</td>
<td></td>
</tr>
<tr>
<td>14. Less dedication to a single breed among NSR members</td>
<td>• Individual breeds are losing their identity • Exhibitors who show hogs are open to showing multiple different breeds including both “major” and “minor” breeds</td>
<td></td>
</tr>
<tr>
<td>15. Generational gap relative to demographics of our business</td>
<td>• Increased need for mentoring and educational opportunities</td>
<td></td>
</tr>
</tbody>
</table>

9. We will see a continued decline in commercial registrations
10. The cost of new technology (e.g. genomics) will increase barriers to entry into the genetic improvement business
11. There will be a continued international demand for U.S. genetic inputs and technology
12. Genomics and commercially relevant research/data will become “table stakes” to participate in integrated commercial pork production
13. We will use less antibiotics to produce hogs resulting in a demand for hogs that are genetically designed for production systems using less/no antibiotics
NSR Mission Statement
Enhance the value of pedigreed swine, maintain breed integrity, and provide relevant member education and youth development experiences.

NSR Vision Statement
To be recognized as the global leader in providing pedigree services, marketing platforms and educational resources that support members in promoting and merchandising documented swine genetics.

Final Business Objectives
The National Swine Registry will achieve the following objectives by 2022

<table>
<thead>
<tr>
<th>Objectives</th>
<th>Current</th>
<th>2022 Target</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Increase operational reserves to 6 months.</td>
<td>$550,000</td>
<td>$1.1 million</td>
</tr>
<tr>
<td>2. Increase junior sponsorship 10% annually.</td>
<td>$220,000</td>
<td>$325,000</td>
</tr>
<tr>
<td>3. Grow the Foundation to $175,000 within five years.</td>
<td>$50,000</td>
<td>$175,000</td>
</tr>
<tr>
<td>4. Ensure all NSR breeds are actively participating in DNA based breed profile testing</td>
<td>1 breed</td>
<td>4 breeds</td>
</tr>
<tr>
<td>5. Increase the number of active NJSA members participating in leadership events and educational competitions by 25%.</td>
<td>2,000</td>
<td>2,500</td>
</tr>
<tr>
<td>6. Maintain domestic commercial registrations at or above 6,000 annually.</td>
<td>6,500</td>
<td>6,000 +</td>
</tr>
<tr>
<td>7. Grow international registrations to 10,000 litters per year by 2022.</td>
<td>7,000</td>
<td>10,000</td>
</tr>
<tr>
<td>8. Grow show pig registrations to 18,500 litters by 2022.</td>
<td>16,500</td>
<td>18,500</td>
</tr>
<tr>
<td>9. Increase entries at NJSA winter/spring shows (December – March) to 2000 entries by 2022.</td>
<td>1,350</td>
<td>2,000</td>
</tr>
<tr>
<td>10. Grow NSR managed auction receipts by 10% by 2022.</td>
<td>$4,000,000</td>
<td>$4,400,000</td>
</tr>
</tbody>
</table>

Revised Core Strategies
I. Drive demand for pedigreed swine genetics
II. Fund the future
III. Equip and enable members for success
IV. Cultivate talent
V. Align organizational resources
VI. Sustain and expand our brand

Strategy I: Drive demand for pedigreed swine genetics

<table>
<thead>
<tr>
<th>Strategic Initiatives</th>
<th>Priority</th>
</tr>
</thead>
<tbody>
<tr>
<td>Collaborate with NPB and co-fund NPB pork quality research to develop and implement a pork quality grading system</td>
<td>A</td>
</tr>
<tr>
<td>• Include research trial with purebred sired hogs</td>
<td></td>
</tr>
<tr>
<td>b. Develop a system to identify and certify genetics meeting specific characteristics for meat quality (including EBVs)</td>
<td>A</td>
</tr>
<tr>
<td>c. Increase the number of fairs/shows and affiliates that have pedigreed hog shows</td>
<td>A</td>
</tr>
<tr>
<td>d. Create a spring-time (March/April) NJSA show</td>
<td>A</td>
</tr>
<tr>
<td>e. Provide registration services for crossbred pigs</td>
<td>A</td>
</tr>
<tr>
<td>f. Establish additional purebred sired classes at fairs/shows</td>
<td>B</td>
</tr>
<tr>
<td>g. Explore the feasibility of hiring a meat/consumer marketing resource to help identify and cultivate pull-thru demand opportunities for specialty pork and provide consumer marketing support to NSR members interested in developing/growing branded pork marketing businesses.</td>
<td>C</td>
</tr>
</tbody>
</table>
### Strategy II: Fund the future

<table>
<thead>
<tr>
<th>Strategic Initiatives</th>
<th>Priority</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. Rename or reposition NSR foundation and focus efforts on securing the necessary resources to provide growth and development opportunities for NJSA members</td>
<td>A</td>
</tr>
<tr>
<td>b. Capitalize on the “entertainment value” of pig shows via revenue generating media assets</td>
<td>A</td>
</tr>
<tr>
<td>c. Organize and conduct an auction/gala event to raise money</td>
<td>A</td>
</tr>
<tr>
<td>d. Pursue non-traditional funding opportunities from existing events/activities (e.g. donations of online sale pigs to NJSA)</td>
<td>A</td>
</tr>
<tr>
<td>e. Develop new value proposition/bundles to grow revenue from NSR services (marketing services, travel services, etc.)</td>
<td>B</td>
</tr>
<tr>
<td>f. Incorporate a futurity program for NJSA events to stimulate growth at NSR hosted sales. (Futurity with purses for both exhibitors and breeders)</td>
<td>B</td>
</tr>
<tr>
<td>g. Develop and promote revenue generating opportunities with key vendors (Hotel, Restaurant, Gas Cards, Credit Cards, etc.)</td>
<td>C</td>
</tr>
</tbody>
</table>

### Strategy III: Equip and enable members for success

<table>
<thead>
<tr>
<th>Strategic Initiatives</th>
<th>Priority</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. Create a mandatory certification program on show ring ethics/animal welfare, including appropriate videos and educational material for all exhibitors of NSR/NJSA sanctioned shows</td>
<td>A</td>
</tr>
<tr>
<td>b. Develop NSR policies regarding the enforcement and disciplinary actions associated with show ring ethics and animal welfare violations</td>
<td>A</td>
</tr>
<tr>
<td>c. Coordinate/develop seminars/workshops and educational resources on pig production 101 for youth and adults</td>
<td>A</td>
</tr>
<tr>
<td>d. Develop show camps that include both showing, production and leadership training</td>
<td>A</td>
</tr>
<tr>
<td>e. Develop a business plan outlining strategies for addressing the needs of NSR members doing business internationally</td>
<td>A</td>
</tr>
<tr>
<td>f. Improve existing EPDs and explore the creation of new EPDs.</td>
<td>A</td>
</tr>
<tr>
<td>• Incorporate ultrasound marbling data into carcass EPDs to improve accuracy and validity</td>
<td></td>
</tr>
<tr>
<td>• Explore feasibility of additional commercially relevant traits (survivability, stayability, etc.)</td>
<td>A</td>
</tr>
<tr>
<td>g. Organize and conduct a convention/symposium</td>
<td>B</td>
</tr>
<tr>
<td>• Include a trade show as part of the event</td>
<td></td>
</tr>
<tr>
<td>h. Coordinate and jointly invest in the development of genomic tests and genomically enhanced EPDs</td>
<td>C</td>
</tr>
<tr>
<td>• The Strategic Planning Task Force recommends a cost share of 50/50 between NSR and breeders</td>
<td>C</td>
</tr>
<tr>
<td>i. Develop integrated, fee-based advertising/marketing campaigns for breeders</td>
<td>C</td>
</tr>
<tr>
<td>j. Create a centralized point to communicate NSR capabilities, media and resources</td>
<td>C</td>
</tr>
<tr>
<td>k. Increase awareness and education around STAGES</td>
<td>C</td>
</tr>
</tbody>
</table>

### Strategy IV: Cultivate talent

<table>
<thead>
<tr>
<th>Strategic Initiatives</th>
<th>Priority</th>
</tr>
</thead>
<tbody>
<tr>
<td>Develop educational programs to introduce junior members to the broader swine industry</td>
<td>A</td>
</tr>
<tr>
<td>• Develop an NJSA University (multiple levels, multiple tracks)</td>
<td>A</td>
</tr>
<tr>
<td>• Design a pork industry leadership tour (travel experience exposing elite NJSA leaders to industry leaders)</td>
<td></td>
</tr>
<tr>
<td>• Update and upgrade competitive educational events (including an event focused on STAGES)</td>
<td>A</td>
</tr>
<tr>
<td>b. Identify and communicate external internship opportunities for junior members (placement opportunities with breeders and allied industry)</td>
<td>A</td>
</tr>
<tr>
<td>c. Identify and develop high-potential leaders within NSR organization to serve in industry leadership roles (NPB, NPPC)</td>
<td>A</td>
</tr>
<tr>
<td>d. Organize events/platforms to connect NJSA members with potential employers</td>
<td>B</td>
</tr>
<tr>
<td>e. Cooperate with the National Pork Board, Farm bureau and other agricultural organizations to provide advocacy training</td>
<td>B</td>
</tr>
</tbody>
</table>
Strategy V: Align Organizational Resources

<table>
<thead>
<tr>
<th>Strategic Initiatives</th>
<th>Priority</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. Support field services while restructuring job descriptions and overall deployment strategy and educating members on the primary duties/responsibilities of the field service team</td>
<td>A</td>
</tr>
<tr>
<td>b. Create individual development plans for staff and invest in necessary training</td>
<td>A</td>
</tr>
<tr>
<td>c. Clarify the roles and responsibilities of the NSR genetics and technology team based on the projected future genetic and technology needs of NSR members</td>
<td>A</td>
</tr>
<tr>
<td>d. Evaluate and revitalize the structure, function and effectiveness of NSR advisory committees</td>
<td>A</td>
</tr>
</tbody>
</table>

Strategy VI: Sustain and expand the brand

<table>
<thead>
<tr>
<th>Strategic Initiatives</th>
<th>Priority</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. Engage allied industry in developing a comprehensive health/disease plan</td>
<td>A</td>
</tr>
<tr>
<td>b. Evaluate and upgrade NSR/NJSA branding and marketing strategy</td>
<td>A</td>
</tr>
<tr>
<td>c. Lead the development of uniform show rules (e.g. NSR’s Foreign Substance Testing Policy)</td>
<td>A</td>
</tr>
<tr>
<td>d. Increase the use of breed composition testing among all NSR breeds</td>
<td>A</td>
</tr>
<tr>
<td>e. Develop a formal Alumni Association and recognize outstanding NJSA Alumni</td>
<td>B</td>
</tr>
<tr>
<td>f. Coordinate and host a symposium for judges</td>
<td>C</td>
</tr>
<tr>
<td>g. Investigate the feasibility of creating and/or managing a certified branded pork marketing program.</td>
<td>C</td>
</tr>
<tr>
<td>h. Seek opportunities to provide pedigree services to other breed associations.</td>
<td>C</td>
</tr>
</tbody>
</table>

Strategic Plan Summary

NSR Vision Statement
To be recognized as the global leader in providing pedigree services, marketing platforms and educational resources that support members in promoting and merchandising documented swine genetics.

NSR Mission Statement
Enhance the value of pedigreed swine, maintain breed integrity, and provide relevant member education and youth development experiences.

Core Strategies

- Drive demand for pedigreed swine genetics
- Fund the future
- Equip and enable members for success
- Cultivate talent
- Align organizational resources
- Sustain and expand the brand

Each year, the National Swine Registry (NSR) sponsors the National Picture Judging Contest. This competition is open to youth and adult participants and includes divisions for 4-H, FFA and collegiate teams. The contest ran in the December 2016 issue of Seedstock EDGE and on nationalswine.com with entries due Feb. 1.

Here are this year’s official results and reasons.

2017 National Picture Judging Contest

Results & Reasons

*Ties were broken based on individual class scores, beginning with the most difficult class or the class with the lowest sum of cuts.

College Individual Division
(115 Contestants)
500 Points Possible

1st Place Total Score: 489
Adam Gradert • Geneseo, Ill.

2nd Place Total Score: 486
Cole Thomas • Aledo, Ill.

3rd (*Tie Breaker) Place Total Score: 485
Hunter Langhoff • Wisconsin Rapids, Wis.

4th (*Tie Breaker) Place Total Score: 485
Lucas Stumpf • Columbia, Ill.

5th (*Tie Breaker) Place Total Score: 485
Morgan Carrick • Blanchard, Mich.

Junior Individual Division
(278 Contestants)
500 Points Possible

1st Place Total Score: 493
Kyle Lund, Wilton, Iowa

2nd Place Total Score: 490
Jada Rock, Wilton, Iowa

3rd Place Total Score: 486
Stephanie Schultz, Polo, Ill.

4th (*Tie Breaker) Total Score: 484
Bailey Roselieb, Annawan, Ill.
Jaidyn Miller, Sheffield, Ill.

5th (*Tie Breaker) Total Score: 484
Cole Ellerbrock, Atkinson, Ill.

Adult Individual Division
(72 Contestants)
500 Points Possible

1st Place Total Score: 490
Jason Corey, Painted Post, N.Y.

2nd (*Tie Breaker) Place Total Score: 484
Justin Hardin, Orion, Ill.

3rd (*Tie Breaker) Place Total Score: 484
Dusty Moser, Marlow, Okla.

4th Place Total Score: 480
Tony VanOpdorp, Geneseo, Ill.

5th Place Total Score: 479
Cody Johnson, Meeker, Okla.

FFA Team Division (25 Teams)
2,000 Points Possible

1st Place Total Score: 1,954
Wilton FFA, Wilton, Iowa
Team Members: Tyler Hartman, Jada Rock, Kyle Lund, Jerome Mays

2nd Place Total Score: 1,904
Fullerton FFA Team 3, Fullerton, Neb.
Team Members: Chase Ostransky, Brent Wetrovick, James Lesiak, T. J. Dubas

3rd Place Total Score: 1,848
Walters FFA A, Walters, Okla.
Team Members: Dakota Gorthy, Nathan Hart, Lauren Hill, Payton Stehle

4th Place Total Score: 1,839

Class 1 – Duroc Boars

Scenario: Rank these boars as they would be utilized in a commercial operation as terminal sires on F1 Yorkshire x Landrace females.

Official Placing: 2-3-1-4 • Cuts: 2-5-3 • Reasons: Tim Arkfeld, Neb.

We as a committee saw this class sorting into two pairs. Realizing the operations goal for a terminal sire to complement the maternal sow base, there are only two sires with the muscle and growth genetics combined with impressive TSI’s that will meet the commercial call. Boars 2 and 3 sort rather quickly into our top pair. Of the pair of power boars, 2 is the one that can balance build and power into a sound package. He’s the better footed, cleaner jointed boar that is more level out of his hip and is more acceptable in the set of his hind leg. Sure, 3’s a powerful big bodied hog that’s heavier structured. But one look at his hock and rear pastern and we as a committee began to question his longevity and breeding soundness. Still, there’s a clear gap in terminal sire potential in the middle. 3’s the better numbered sire that is faster growing and, although not perfect himself, is better in the angle of his blade than 1. Certainly, 1 is a shapely boar that is set higher at the base of his tail. But he’s the small scaled boar that’s extremely upright in his shoulder and tight hocked, we like him third. Now in a closer bottom pair that both are problematic, we feel that 1 will just sire more muscle and dimension on F1 females and be faster growing, ultimately making more profit than 4. Yes, 4 has some trendy pieces. He’s the tall fronted, level made boar that’s big boned. But all too often when we chase trends we lose sight of the big picture and he just doesn’t have enough muscle to be called a terminal sire.

Class 2 – Hampshire Boars

Scenario: Rank these boars as they would be utilized on Hampshire and crossbred sows to produce purebred barrows and gilts, as well as crossbred barrows eligible for the Hampshire Sired Class at the World Pork Expo Jr. National.

Official Placing: 3-2-4-1 • Cuts: 2-3-4 • Reasons: Mike Day, Okla.

In this class of Hampshire Boars the committee felt that in the scenario of making showpigs that 3 came to the top. He is the one that is the most correct on his feet and legs. Also, he combines the heaviness of structure, width and overall design to lead off the class. 2 follows 3 in that he is tall fronted and heavy structured but seems to lack the boldness of rib of 3 and doesn’t appear as wide through his overall skeleton. 2 does appear to express a little more muscle through his rump than does 3. 2 does appear longer and taller fronted than 4 and should sire more attractive, well-balanced showpigs. 4 is the deep bodied massive boar but lacks the extension of front end and flex to his rear hock to move higher. 4 is bolder ribbed and wider than 1. We felt 1 was an easy bottom. He is the worst designed and straightest through his shoulder, he appears to break behind his blades and needs to be leveler through his hip. 1 is leaner than 4 and is cleaner through his neck and head.
Class 3 – Landrace Boars  Scenario: Rank these boars as they would be selected for use in a purebred operation that primarily focuses on producing grandparent boars for the purpose of F1 female production.

Official Placing: 2-4-1-3 • Cuts: 3-3-7 • Reasons: Pat Arkfeld, Neb.

The Landrace boars we felt were pretty straightforward, if you realized this was a commercial scenario that’s making females. As a committee, we found three boars that offered quality. Of those three, the 2 boar is the one that you should label as the female maker. He’s the big bodied robust herd sire that’s correct in his build and offers plenty of power. Toss in his genetic values and we feel he should be the source of female genetics. We realize he’s not a trend setter and we wish he was cleaner frontal, but realizing his progeny will never see a show ring his real world look should be profitable. Now, we understand why some may start 4 he’s the taller shouldered boar that’s cleaner and more extended about his front end and offers more shape. But if you truly study his skeleton, it’s clean, but he needs modification. The flat footed boar needs to be laid back in his blade and strikes us as flat ribbed. Still, in a middle pair of boars that both have unique breeding pieces we felt 4 was the bigger skeleton alternative that’s better in the set of his hip and real leg. No question, 1 is bolder ribbed and heavier muscled, but we feel the plainer frontal boar needs to be more correct in the build of his hip and hind leg. But we still deem him functionally structured and use his added mass in the bottom. The boar that’s more traditional in his breed character is backed with better numbers and is just more powerful. 3 may be a bit squarer toed, however the short-eared, straight-hocked boar is the least suited for this operation.

OFFICIAL: Pat Arkfeld • Dunbar, Neb.

Pat attended college at Kansas State University, where he was a member of the Livestock Judging Team. He is currently the Assistant Livestock Judging Coach at Hutchinson Community College, in Hutchinson, Kan. He and his father, Tim Arkfeld, operate Arkfeld Genetics.

Class 4 – Yorkshire Boars  Scenario: Rank these boars as they would be purchased by a showpig producer who plans to utilize Yorkshire boars on crossbred females to improve the consistency and maternal quality of their sow herd.

Official Placing: 4-3-2-1 • Cuts: 2-2-4 • Reasons: Doug Schaefer, Texas

The top three hogs in this lineup all have the skeletal flexibility to make functional breeding stock. Between those, 4 is the most massive and boldest bodied. He studies with the most total mass through his ham and genuine base width underneath. 4’s got the most to him, yet he studies as correct as any through his angles and he’s the longest out of his hip. His ability to put power and correctness together is where we chose to start.

The committee still viewed the top pair as extremely close. After all, 3’s got the edge in look through his front end where he is just as stout skulled but studies cleaner through his throat and jowl. He reads squarer at the topside of his blade and more expressive in the turn to his loin up high. His balance could make some impressive replacement gilts, but he’s still got a barrow making look to him. We were tempted to start the class with him and he makes a strong case to win. In the end, he’s built shorter in his hip and straighter in the set to his hock. We left a good one second and only cut you 2 if you switched the top pair.

The middle pair still studies close, as well and these are perhaps the most different of any two hogs in the drive. We sided with 3’s more rugged look and rib shape advantage within this particular pair. There are tradeoffs for structure that we will discuss, but we liked that 3 is more appropriate in the set to his pasterns.

The hog that studies the absolute most flexible in his skeleton sits in third. He’s got the most cushion built into his hock and the most backward curvature to his knee. He’s also the longest necked hog of the drive who is set high at the base of his tail. Ultimately, 2 just doesn’t have the added bulk of the top two boars in the set, and he’s not as stout in his skull, forearm, or foot. On top of that, we wished his pasterns were a nickel stronger and worry that it could limit his versatility on crossbred gilts. Still, he’s one of the three hogs in this drive who could make them more flexible and still keep hogs attractive up front.

The bottom pair was a structure sort and 2 looks like he should definitely get out and go with more reach. He also views more expressive down his top and thicker through his ham. 1 appears to be stout in his forearm and level hipped. He’s not presented quite as well at the backdrop, but he’s one that runs downhill, ties his neck in the lowest, and still studies the straightest in his hock. He needs more muscle to hunt in this set as well.
Class 5 – Duroc Gilts scenario: Rank these gilts as replacements in a purebred Duroc operation that utilizes a branded pork program to capture value added premiums.

An awesome set of red gilts that we as a committee found exciting to sort through and discuss. First thing that you should think of when you turn to this page is that all four of these gilts could offer a lot of value in any program. Although the scenario states that these will be utilized in a branded pork program you still should realize these are some awesome gilts that you still can sort off of quality. As a committee we found two females to sort up based off their ability to combine power with the right kind of build and female quality. Of the pair we felt 4 was a bit more unique in her head carriage and set of her hock. The light colored gilt is extremely tall fronted level made and offers plenty of power while still being great footed. Now we can understand if you like 3 she’s the big bodied brood sow who’s big boned and overwhelming in terms of power. However, we felt that the dark red gilt was a bit heavier conditioned and not as unique in her build. From there, we as a committee found a clear separation, in build, in the middle. 3 is just better in the angle of her blade and offers more natural mass and dimension. Yes, 2 is a clean-fronted, green-conditioned gilt that’s got more shape. But one look at her front end and we become concerned she’s too upright in her blade and front pastern. Still, in a problematic bottom pair she’s the feminine fronted gilt that’s more genuine in her condition and more acceptable in the shape of her toes and better in the build of her hock. No doubt, 1 is the class leader in power and body. It’s just unfortunate that she can’t complement it with the right kind of build. She has to be better on her front feet and is pushing the upper limits of acceptable fat. Bottom line she needs to be better structured to move up any higher.

Class 6 – Hampshire Gilts Scenario: Rank these gilts as they would be purchased by an NJSA member who competes in the NJSA Premier Breeder program.

Wow, what a class of Hampshire females that all fit the scenario. The committee felt this class easily fell into a top pair and bottom pair. The narrow belted 1 gilt leads off the class as a great built, smooth designed, heavy structured female that combines look and balance to the highest degree. Great design and flawless in her angles and build and suits the eye as one you can build a program around. Followed closely, in second place, with the 4 gilt that is another big centered wide chested female. The white legged 4 gilt however was a bit forward at her front knee and not as big in her rear toes and feet to place above 1. As we transition to the middle pair 4 places over 2. 4 is more ideal in her head and neck carriage and more correct in her angles out thru her hip and rear hock and thus fits the scenario in a more positive manner than either 2 or 3. In the bottom pair, in a close placing, 2 offers more rib and center body and more width of skeleton than 3. We end up the class with 3, a longer muscled Hampshire female with good toes and greater strength of pasterns than 2. However she lacks the power in her rib cage and muscle density thru her rump and ham to be placed any higher in the class.
Class 8 – Yorkshire Gilts  
Scenario: Rank these gilts as they would be selected as replacements for a purebred Yorkshire operation that utilizes NSR Type Conference events to market breeding stock.

Official Placing: 4-3-2-1 • Cuts: 3-3-5 • Reasons: Tim Arkfeld, Neb.

This class offered us as a committee some discussion because we wish we could change every gilt in an area. But after breaking each one down individually, we feel that the 4 gilt puts the most positives together. She's the feminine fronted gilt that's tall shouldered, level designed and deep bodied. In order to make her win with ease we would like to see her bigger in her vulva and set down with more comfort in her hock and be better footed. But with mating protection we feel this is the gilt that has the best chance to produce papered breeding stock. Now what makes it interesting is that 3 reads correct in her angles and strikes us as more youthful in her kind while also having a bigger vulva. It's just unfortunate that at first glance she's the frail featured gilt that needs a shot more substance. She's the better footed option that's more correct in her skeleton all the while being more feminine about her head and neck. Now there's no question 2 holds the class advantage for power, growth, and body but it comes at a sacrifice to her build. The flat footed gilt is too straight up front and gets too easy topped. We feel this is the gilt, of the top three, that will take the most generations to make competitive breeding stock. With that said we side with her power in the bottom. Now, one is stronger topped and more correct on her feet. But our first impression of the flat, narrow constructed gilt, was that she's too frail and needs more natural dimension.

Class 7 – Landrace Gilts  
Scenario: Rank these gilts as they would be selected as replacements in a large multiplier that utilizes Landrace and Yorkshire genetics as the maternal foundation of their production herds.

Official Placing: 4-3-2-1 • Cuts: 2-7-2 • Reasons: Kevin Wendt, Ohio

In evaluating the Landrace gilt class, the committee thought it was an easy decision to find a top pair and a bottom pair with 4 and 3 rising to the top based on the visual look of this pair of gilts and the data presented with the scenario. Quite simply, 4 looks like a landrace female; long necked, level topped and hipped, high quality underline and clean jointed and has a slight advantage in numbers over 3. The 3 gilt follows closely in second and you first have to admire her length of front, square muscle shape and flexibility out of her hock. She has the look and design of a show hog that could generate, however you would like to strengthen her pasterns and her overall maternal numbers to surpass 4. The middle pair is an easy placing as 3 dominates her contemporaries in production records and offers a more ideal skeleton and build to make correct replacement females. Moving on to the bottom pair, in a close placing, 2 places over 1. 2 is longer fronted and looks more like a lady with a more correct and cleaner set to her hock and cleaner joints. We admit 1 is a heavier boned female with greater fore rib, however she lacks the correctness of skeleton and rear hock to survive the multiplier conditions the scenario calls for to place any higher in the class.

Many states are now requiring swine to be tagged with official ear tags for interstate transport. Visit NATIONALSWINE.COM/LIBRARY to download more information.
Class 10 Crossbred Market Hogs

**Official Placing:** 4-3-2-1 • **Cuts:** 2-2-5 • **Reasons:** Doug Schaefer, Texas

Depending on where you set your priorities, you could make a case for any of the top three hogs to win. Ultimately, the committee viewed the chromed up gilt to put the most good together and used her to lead off the class. 4’s built with comfort and athleticism through her lower joints and studies balanced in her look from the side. She’s attractive ahead of her blades and then opens back as bold as any through her blade, center skeleton, and hip. She’s not perfect though, she studies a bit out at her elbow and could be picked up at the base of her tail, but these are pretty minor issues when you consider that 4’s still a good looking hog with power and athleticism. 3’s best view is from profile. The blue hipped gilt is high in her head carriage and neck set and extremely attractive from there back. Her correct skeletal build lends to a very balanced look from the side. On her own, she’s one that the committee wouldn’t label as light muscled by any means, but she’s arguably got the least total mass of any hog in this class. It’s tough to make them this problem-free and she’s the most complete, but we felt her deficit in total product and spread was enough to let her settle in second. The middle pair is very different and the committee went back and forth. Between the pair, 3’s just more captivating in her look and studies more youthful. Carcass-wise, she’s leaner in her composition and has the edge in muscle shape up high. The speckle-hipped barrow in third holds the class advantage for body dimension. He’s the most pliable in his rib cage and very productive in his look. He’s sound at the surface, just like the two we’ve got ahead of him. The problem is this one’s not as clean ahead of his blade, rounder out of his hip, and more modest in his muscle shape. We could see some tying to his body dimension and practical look, if that’s their kind, but he just becomes the plainest of the top three so committee slotted him third. The bottom is pretty straightforward, we used 2 over 1. In this pair, 2’s obviously more comfortable and correct in his topline. On top of that, he views with more product and muscle over the topside of his skeleton. The blanket hipped barrow that closes studies fairly sound at the ground and wide based. He’s not out of the picture for total width and squareness underneath. We thought it stood out that he’s the roundest out of his hip, the poorest balanced, and the plainest in his top shape. So we ran him fourth in a pretty strong lineup.

OFFICIAL: Doug Schaefer • Garden City, Texas

Doug Schaefer and his family own and operate Schaefer Livestock, which includes approximately 60 sows consisting of crossbred, Berkshire, Chester, Duroc and Spot pigs. They also have a small boar stud used mainly for their own use, but they do have semen for sale. They have a passion for raising competitive show pigs. Initially, their focus was on crossbreds, however they have started raising purebreds to satisfy their customers needs.

From the Field

Mick Bellamy | mick@nationalswine.com
NSR Field Representative

As we gathered together, in Perry, Ga., for another Winter Type Conference and NJSA Southeast Regional, spirits were high. Everyone seemed ready to open the new year right. We had a barn full of good stock to sort through and find new homes for.

Todd Beyers, Texas, judged the Durocs this year and did an excellent job. He used hogs that were practical, basic, and problem free while still being unique enough to move the breed forward. Thanks, Todd! Great job! As always, the sale was auctioned at an extremely high level by Kevin Wendt, Ohio. Great job, Colonel!

We started the Duroc portion of this year’s sale by presenting our premier and reserve sire awards. This year’s Premier Sire was NBRPS Class Act 15-8, owned by Premium Blend Genetics, Ind. Our Reserve Premier Sire went to NBRPS He’s the One 15-6, owned by Hi Point Genetics, Norman Brothers and Ripberger. Next up was this year’s Champion Duroc Boar. The winner of Class 3, this Howard Parrish entry was a son of HP4 True Grit 1-3. This one was unique is so many different areas. He was as structurally correct as you can make one. Combine that with an extremely heavy skeleton, huge feet, an attractive, yet stout front end with extra extension and you have one that can make changes. On top of all that, he had a pedigree that is an outcross to most everything in the breed right now. When the hammer dropped on this one, he was headed to Chrisman, Ill., with the Hi Point crew at the price of $12,000. Give this one a try.

Peyton Hill was next with her reserve champion. The Class 4 winner on show day, he is a son of NBRP New Direction 15-3. This guy was square, big chested, and had a ton of shape. Heavy muscled, yet still correct on the move, this one went back home to be used on the growing Duroc herd in Dustin, Okla. Call this firm for semen on this one.

Stokey Family and Sons were in next with their Class 3 winner. Their son of BBTSS Prestige 9-2 was a heavy-boned, level-made one, that could flat get out and go. Triple B Sires, Okla., made a tremendous buy on this one at $550. This one looks like he can make barrows, junior gilts, or whatever you need.

Another boar of note was the Mary Rensing entry in class 3. A son of HD4 TCG Auto Pilot 68-2, this guy was a true muscle hog. This one’s shape, mass, and ability to function were as good as any in the barn. He will be making his way to Tennessee with Abigayle and Derek Bartholomew at the sales second top figure of $3,750.

The female portion of the sale was led off by Travis Hamilton’s, Colo., daughter of NBRPS New Direction 15-3, who was earlier named the Champion Duroc and Overall Champion in the NJSA show. This gal was special. A big skeleton, huge centered and ribbed, and was being able to float across the ring were this gal’s strong points. She went to the Bowling family, Ind., for $3,400. Great buy!

The reserve gilt from the NJSA show came next. A daughter of NBRPS He’s The One 15-6, she was exhibited by Courtney Conine, Ga. This one had the look, stoutness and muscle that has become what you’d expect from her sire. This one stayed in Georgia and went to the Oliver Family at $1,150. Good job!

Next came Pierce Woodruff, Ind., with his Champion of the open show. Another daughter of NBRPS He’s The One, she was the winner of class 2 on show day. This one was truly unique. Her ability to combine the look with mass, rib and shape, were unauged on show day. Combine this with femininity and great feet and legs – look out! After very spirited bidding, She went to the Adam Beck Family at Crossroads Genetics for the sales top figure of $20,000. She’ll sure get a chance there.

Peyton Wininger’s Reserve Champion and winner of class 5 came next. A daughter of NBRP New Direction 15-3, this one was long fronted, square built and really flexible. Kaeubuhcer Showpigs, Ind., got a great buy here for $1,800.

The Cain Kids, Iowa, who were the winner of class 4, then entered the ring next. Sired by CAIN5 Hell On Wheels 8-1, this one was able to combine a heavy skeleton with function, rib and muscle. She went to North Carolina with the Andrews family at $2,000.

Razin’ Cain Showpigs, Iowa, were next with their class 3 winner. This daughter of ISUS Veisha 29-3 was as big centered, big topped and productive looking as any that were offered. She went to Indiana with Burkhalter Showpigs on sale night for $1,300.

Lance and Mitchell Westkamp brought their class 6 winner in next. Sired by HD4 TCG Centerfold 38-5, this one was correct, growthy and flexible. Todd See, N.C., got a great buy here for $500.

Cason Edenfield’s winner of the youngest class was next. This daughter of HAM5 Solution 9-4 looked like she could make barrows with shape and the look all day long. Cason is taking her back home and will give her a chance.

There were several other gilts of note in the sale. Reagan Bowling, Shaffers Goldrush and Howard Parish had gilts that were popular on sale night.

Finally, thanks to the great crew that prepares the fairgrounds and keeps everything working smoothly while we’re in town. This group goes above and beyond to make things work. It couldn’t happen without them.

This show just continues to grow and expand. It is quickly becoming one of our premiere events of the year. We encourage you to put it on your schedule next year and come and participate. It’s a great event!

Shown by Mitchell Concannon, Ind.
Sold to Heartland Sires LLC, Ohio, for $550.

Premier Sire –
NAJO5 GRUS THE GAME 12-5
 Owned by Shaffer’s Goldrush & Feckes, Ind.

Res. Premier Sire –
JLM3 CARRY ON 21-1
 Owned by Hi Point Genetics, Ill.
Every year we all look forward to a break from the weather and the Georgia hospitality that comes at the end of January. This year we had the opportunity to have a man, who I had never met, judge the Hampshires, and it was a pleasure to get to meet and work with Mr. Mitchell Hankins, Ark. Mitchell did, what I thought was, a great job aligning the hogs and explaining his placings. Mr. Hankins was first class with the exhibitors, and I enjoyed getting to know him.

This year the Premier Sire in the Hamp breed was NAJO5 GRUS The Game 12-5, owned by Shaffer's Goldrush and Feckes. As many of you know, this was the Champion and high seller at the 2016 WTC from Josterns, Mich. The Reserve Premier Sire was JLM3 Carry On 21-1, owned by HI Point Genetics, Keith & Brian Lambright and Jerry McMenemy. He is a boar that continues to do a great job for many. Congratulations to all these firms and the hogs represented.

The Champion boar this year goes to Cody & Samantha Smith, Ind., with their son of NAJO5 GRUS The Game 12-5 and he was out of a JM3 Lumberyard 7-4 sow. Cody and Samantha had to stay home this year with the birth of their first baby, but needless to say, new grandpa Rex was able to tend to the Champion boar. The Smith hog was one that genetically represents some of the current genetics that have been working well for many, but he also had a look like will generate. He was one with a stout skull, big forearm and chest floor. From the side he was balanced and I would say he had the right length of body to make breeding stock or show-hog hit me like a breeding piece. A notch bigger kind of hog that still had loads of bone and width of skeleton. The boar had a big top and his pen set hock and hind leg were wide and square to the ground. You might think he was just a power hog, but I would disagree. From the side he was tall shouldered and had a good look about his front end. Congrats go to the Earnharts.

The Champion Hampshire Gilt came out of class 3. A daughter of NAJO5 GRUS The Game 12-5 x GRUS2 GRUS Country Club 18-3 and was driven by Mitchell Concannon, Ind. What a gift Mitchell brought down to Georgia! This gilt looked like a lady – Awesome looking, really flexible and comfortable at the surface. I really liked her joint quality, vulva size and underline. She really represented what a big-bodied, productive Hampshire gilt needs to look like.

The high seller came out of class 2. Coy Walker, Ind., brought down a littermate to the champion boar, NAJO5 GRUS The Game 12-5 x JM3 Lumberyard 7-4. The breeding piece of the gilt offering, she was a stout-headed, huge, big-structured kind of gilt, with a good running gear and round rib. Congrats to Coy and good luck to Shaffer’s Goldrush with their purchase of this beast.

Not the greatest numbers of Hamps this year, but a really good offering of gilts and boars in Georgia. Thanks as always to Kevin Wendt, Ohio, for handling all the auctioneering duties at the WTC. Also a shout out to all those who help with the show from the barn crew, to the families that help us every year, and as always, thanks for the hospitality.

VAQUERO

Champion Hampshire Boar, 2017 SWTC
Purchased by Stewart’s Duroc Farm & Schenken Genetics

Call Jim for semen on Grimm herdsires.

LUPI6 Outsider 106-7

LUPI4 LVS Decidedly Different x LUPI3 Carbon Footprint 7-2

We are excited to add this boar to our herd from Kuhlow Girls Showpigs, Wis. Outsider offers elevation up front and cleanliness without giving up the power we like.

Thank you to Craig Bauman and Doug Stewart for their purchase. Vaquero offers power, shape and elevation up front, all in a very comfortable and athletic package.

Call Craig at 325-423-1177 for semen.

Sold to Burkhalter Showpigs/Dennis, Ind., for $800.

Premier Sire –
DOVS2 BAD CAT 9-8
Owned by Premium Blend Genetics, Ind.

Res. Premier Sire –
WTX4 GOT 'EM 14-6
Owned by Upperhand Genetics, Ind. & WinTex, Texas
The Landrace event in Perry, Ga., this year was extremely high in quality. While not large in numbers, the hogs were extra good. The show was judged Saturday morning by Randal Buck from Eufaula, Okla. He worked through the set with speed and expertise. Always a pleasure to have you Randal. Great job!

Kevin Wendt swapped the hogs for us on Saturday night and did his usual great job. Thanks, Colonel! We led the Landrace boar sale off with Peyton Hill’s Champion. This one was a game changer. This son of KORB4 Overthrow 23-8 was massive up high, huge topped, big bladed, heavy boned and as opened up as you can get one coming and going and still have the ability to function. This one will make the trip to Indiana with Crossroads Genetics, Ind., at the sales top price of $4,750. He’ll be available for everyone to try. Thanks, Adam!

Next in was Chad Mauck and his son of WTX4 Got ‘Em 14-6. Judge Buck stated show day that this pair was extremely close. This one was a littermate to the very popular Champion gilt in the NJSA show held earlier in the week. This guy was mega stout. He combined a heavy-duty skeleton with a touch more frame than the Champion. He was flexible, good looking and had a bunch of mass and true shape. He’s also headed to Indiana to join his sire at Upperhand Genetics. Thanks Travis and Sam! We led the gilt sale off with the Champion of the NJSA show. As stated above, this gal was a daughter of WTX4 Got ‘Em 14-6 and exhibited by Chad Mauck. She was one of the best Landrace females we’ve had offered at a national event in a while. This one had all the bells and whistles. Feminine, heavy structured and muscular with structural integrity. This one put it all together. She went to junior member Maci Scher at a sale topping $2,700. She’ll get to head back home to Indiana! Thanks, Maci!

The Champion of the open show was next. Shown by Sierra Graham, Fla., this one was sired by DOVS2 Bad Cat 9-8. Broody, big backed and busted open, this one could go all day. Young Miss Scher added this to her earlier purchase at $1,000 and she will make the trip to Indiana also.

The Reserve Champion was next. A littermate to the Champion, this one was shown by Lance and Mitchell Westkamp, Ohio. Very similar to the Champion, this one was slightly more moderate with a little heavier skeleton. She was still really correct and had a good look when you viewed her on the profile. She went to Burkhalter Showpigs, Ind., for $800.

Perry proved that there is a strong market for quality Landrace. Put this show on your list to attend next year. It will continue to grow in popularity.

Again, thanks to the crew at the Georgia National Fairgrounds and Agriplex. You make it enjoyable to run this event. Hope to see you next year.

RSY4 BUZZ SAW 3-4

Owned by Shipley Swine Genetics, Ohio
From the Field

Michael Lackey | michael@nationalswine.com
NSR Field Representative

The Georgia National Fairgrounds & Agricenter located in Perry, Ga., is home to the National Swine Registry's Winter Type Conference and NJSA Southeastern Regional Show. If you are looking for great show to attend, and enjoy a healthy dose of southern hospitality, mark down this event in your 2018 show calendar!

Randal Buck, Okla., was asked to judge the Yorkshire show. We had a quality set of breeding gilts to sort and we sold set of boars to work with. Randal did a great job of looking at each entry while still moving at a fast pace. Thank you Randal for a job well done!

The Premier Yorkshire Sire went to FNKA4 Proven Journey 1-3, owned by Gary Funkhouser and Family and Hi Point Genetics. The Reserve Premier Yorkshire Sire was awarded to RSY4 Buzz Saw 3-4, owned by Shipley Swine Genetics.

Congratulations to Diesen Show Pigs of Pocahontas, Ill., for driving the Champion at the 2017 Winter Type Conference. This son of SSS High Country 41-4 has the look of a champion. He is extended ahead of his blade, tall shouldered, level designed and good hipped. This guy has a wide chest, good shape to his rib and goes away from you wide and true behind. He has all kinds of muscle and should sire extra look in his offspring. Call Southern Gold Sires of Salem, Ind., to book semen. He sold for $5,250.

Grayson & Peyton Carter of Hazelhurst, Ga., drove a son of RSY4 Buzz Saw 3-4 to reserve honors in this year's show. This guy is big ribbed, and will sire soft-centered hogs that have a show ring look from the side. If you need a boar to stout up your Yorkshire program, this guy can do it. The Carter crew decided to retain ownership of him for $900 and take him back home.

The third boar in the ring placed second in class 2 exhibited by Eddie E. Robinson, Mo. This boar is rugged and has a great underline. She will go to Reidsville, Ga., with Oliver Farms Inc. for the price of $4,300.

There was a really good set of Yorkshire gilts to pick from at 2017 WTC and we had a very special one to start the gilt sale with. Congratulations to Bethany Sims of Pikesville, Tenn. Her daughter of CDO3 Power On was champion in the junior show on Friday. This lady is a really correct show gilt, great looking from the side, feminine made, correctly balanced and sound. She sold to Ricky Lyons of Mayo, Fla., for $1,250.

Next in was a daughter of TBD55 Reach 69-1 that was Reserve in the junior show and driven by Hunter McMillan of Grandy, N.C. Hunter's gilt is tall shouldered, extended up front and has a little extra in terms of bone and stoutness of skull. She balances extremely well and looks like a lady. She sold to the Bowling Family of Greencastle, Ind., for $2,600.

For the second year in a row, Evan Rice of Huntington, Ind., drove the Champion Gilt in the open show with his entry from class 5. This female is sire by TBD55 Taylor Made 67-8, she was raised by Chuck and Ben Olsen of Irene, S.D. This gilt has the look of a Yorkshire brood sow. She is open and square in her chest floor, big in terms of her forerib and center body. She has a huge square top, long and loose hip and looks like a lady. Plus, she is as sound as a cat! This champion female will go to work for Harry Williams of Hazelhurst, Ga., for the price of $1,450.

The Reserve Champion Gilt is an entry out of class 2. She was exhibited by Kole Kelley of Toccoa, Ga. Kole's gilt is sired by FNKA4 Proven Journey 1-3. This lady is stout skulled, big centered and square as she tracks away. She looks like a show hog from the profile. John, Conner and Micah Smock of Jackson Center, Ohio, made a great addition to their program for the price of $700.

Next in the ring was the entry from Ralph Bowling and Family of Greencastle, Ind. This sow prospect was sired by BOWS Big Dog 36-9. You want to talk about a gilt that looks like a lady, then this one was for you! She is wide constructed, soft centered and can drive all day long. Plus she has plenty of muscle in her hip and has a great underline. She will go to Reidsville, Ga., with Oliver Farms Inc. for the price of $4,300.

Drew Rice of Huntington, Ind., was next in the ring with a gilt that is sire by CDA5 TCG Trademark 4-5. This gilt is robust in her design, wide in her chest floor and can really react out of her front end. She will go to work for Robin Ridge Farm, LLC of Clay City, Ind., for the price of $1,800.

Thank you, Kevin Wendt, Ohio, for an excellent job serving as auctioneer. Thanks to everyone who helps with putting on the Winter Type Conference and Southeast Regional.

Reserve Champion Crossbred Gilt & Class 2 Winner
AMERICAN BAD BOY x VISIONARY
Shown by Lilly Quesenberry, Ohio
Sold to Lilly Quesenberry, Ohio, for $2,250.
Cloudy and cooler weather greeted us when we arrived in Perry, Ga., for the 2017 Winter Type Conference. The sky soon cleared in central Georgia and made for a beautiful sunny week.

Todd Beyers, Texas, stepped in to judge the Crossbred Show at the 2017 Winter Type Conference. We had more numbers of high-quality hogs show up in the crossbred show than in years past. Todd did a great job sorting through this large and deep set of hogs. Thank you Todd for a job well done!

Justin Coyle of Sperry, Okla., drove this year’s Champion Crossbred Boar. His boar is sired by Knee Deep. If you were in the need of a great-designed, tall-fronted, level-designed boar that has a good hip and a big rear leg, this guy would have been your kind. Plus, he is has a big, square top and all kinds of muscle from behind. He will make his way home with Randal & Terrell Buck of Triple B Sires in Eufaula, Okla., for the price of $24,000.

The Reserve Champion Boar placed second behind the champion in the heaviest class of the day. He is sired by Pinnacle and was exhibited by Travis Hamilton of Model, Colo.. This guy was killer from the side; he has all the popular traits that everyone is talking about. But more importantly he can really flex and go from behind. The Hamilton’s decided to retain ownership in this one for $700.

The next boar to sell was the entry from Razin Cain Showpigs of Guthrie Center, Iowa. Their boar is sired by Up Front, and he is square at the ground. He is bold and open in his chest, has a good center body and has plenty of muscle. He sold to Stephen Cordle of Omega, Ga., for $550.

Next in the ring was the winning entry from Razin Cain Showpigs of Guthrie Center, Iowa. Their boar is sired by Up Front, and he is square at the ground. He is bold and open in his chest, has a good center body and has plenty of muscle. He sold to Stephen Cordle of Omega, Ga., for $550.

The Reserve Champion gilt won class 2. She was exhibited by Lilly Quesenberry of St Paris, Ohio, and was sired by American Bad Boy. This lady is moderate in size, but still tall fronted and level hipped. She has plenty of muscle and rib shape. The Quesenberry Family decided to load her back on their trailer for $2,250.

Next in the ring was the winning entry from class 6, exhibited by Drake Blaydes of Ladoga, IN and sired by Anytime. You want to talk about a gilt that has all the basics covered yet still has a great show ring look, this was her. She will go home with Oliver Farms Inc. for the price of $2,000.

Macy Mead of Monrovia, Ind., was in the ring next with a gilt that won class 5. She is sire by Carbon Copy. This gilt is robust in her design, wide in her chest fl oor and can really react out of her front end. She will go to work for Scott Buchanan of Skanton, Va., at the price $250.

Bethany Sims of Pikeville, Tenn., was in the ring next with the winning entry from class 4. Bethany’s gilt is sired by Red Sky. This moderate-framed gilt is really correct in her build and has plenty of muscle. She sold to Oliver Farms Inc. of Reidsville, Ga., for $1,700.

Thank you, Kevin Wendt, Ohio, for an excellent job serving as auctioneer. Thanks to everyone who stepped in to help run boards and swing gates at this years event!

From the Field

Mick Bellamy | mick@nationalswine.com

NSR Field Representative

Great weather greeted us upon our arrival in Belton, Texas, this year and stayed the entire week. We even received a much needed rain on the weekend. A record number of entries arrived starting on Wednesday afternoon, and after some anxious moments, we managed to get everyone penned and situated.

This would not have been possible without all the great work and cooperation from the crew at the Bell County Expo Center. Their two crews spent many early mornings and late nights preparing the facilities for us to have a successful event. Things went smoothly all week. It wouldn’t have been possible without them. Thank you so much!

We have absolutely got to give a big shout out to the crew from Blinn Junior College that worked so hard and tirelessly all day show and sale days. These young men and women made sure that everything was in and out in timely fashion and were tremendous to work with. Thank you!

This year’s show was judged by Bob Listen from El Reno, Okla. Bobby is a very highly respected Vo-Ag Instructor and purebred breeder and has judged many state fairs and national breeding shows all across the nation. Bobby did a very professional and heartfelt job, and we thank him for his time and his dedication to this great industry. Thanks, Bobby!

As usual, Colonel Kevin Wendt put his stamp on the sale on Saturday. His ability to get them sold and moved through the ring is second to none. Thanks, Colonel!

We started the Duroc sale with the Earl Cain and Family Champion boar. This son of RLR4 Man Up 5-2 had won class 4 on Friday before being named Champion by judge Listen. This one was stout! He had the ability to work an extra-heavy skeleton, along with a nearly ideal look on the side profile. Long and level in his hip and rump design, this guy can stout hogs up while still keeping them correct in their angles. He went to Shaffer’s Goldrush, Ind., at the price of $3,500. Give this one a try.

Next in was the Reserve Champion and winner of class 6. Hirschfeld and Sons’ boar was sired by HD3 Royalty 19-2. This was one was as extreme in some areas as any hog in the barn. His chest floor and upper rib were immense, and yet his ability to reach and go up front was so unique in a boar with the extra width and mass he contained, in the front third of his body. Combine that with a huge back and hip, and you’ve got one that can make change in one shot! Chris Fischbacher at Next Level Genetics, Texas, picked this guy off at $2,500. Give him a call.

Next in the ring was the Abigayle and Derek Bar- tholomew boar that was 2nd in class 4 behind the Champion. Sired by ABI5 Axle Rose 26-3, this one was the product of a line-bred pedigree that the Bartholomew’s have worked with on their farm for years. This one was good in all the basics, yet combined that with some real extreme pieces. He was sound, correct and balanced. You add extra bone, foot size, rib and muscle to that, and you’ve got one that is able to get some things done! When Colonel Wendt dropped the hammer, he was headed to Wintex Farms, Texas, at the sale’s top figure of $35,000. He will definitely get a chance in Idalou. Thanks and congrats to all involved!

David Martin’s winner in class 5 was in the ring next. This boar was a son of DCM4 Cash Rent 43-3 and was a big-chested, rugged, heavy-muscled one that just floated around the ring. His new home will be with Chuck Real in Texas.

Norman Brothers and Son’s, Ill., were next. The Second-Place boar behind the Reserve Champion in class 6 on show days offered some very different pieces. This son of CAINS Believe In Me 10-2 was able to offer a bigger skeleton with extreme width of chest, extra upper rib and muscle, and the ability to really reach up front and plant and drive behind. He went to Purple Power Boar Stud, Ind., for the sales third top price of $11,000.

Chuck and Ben Olsen’s winner of class 2 was up now. Sired by ALBDS Inevitable 1-2, this one was as correct and problem free as any there. His level design, square build and extra muscle shape made him a really good buy for Harman Farms, Texas. Look for Wayne and Leslie to make some great females and championship-caliber barrows with this one.

Devin Ammann, Ill., had the class 3 winner. A son of NBRPS New Direction 15-3, he was a stout, muscular boar with great feet and legs. Hunter Touchet, La., got a great buy here for $400.

The Kuhlow Girls, Wis., winner of class 1 was next. The youngest boar in the barn, he was sired by DCM4 High Rent 43-5. This young fellow had a ton of shape and lean muscle, yet was still really correct in his overall build. He went to RAR Genetics, Iowa, at $1,100.

There were several other really popular boars on sale day. Knight Genetics, Ill., had a son of NBRPS He’s The One 15-6 that was long fronted, wide based and tall fronted that went to Shaffer’s Goldrush as their second purchase of the day for $7,500. Randy Wirt’s, S.D., son of MAFF Trump Card 15-8 was a notch bigger-framed boar with extra shape of rib and blade, good muscle shape and an extra-heavy skeleton. He sold to Thompson Brothers Genetics for the sales second top figure of $22,000. Stephen F. Austin State University, Texas, had a boar in the youngest class that was much talked about, too. A son of WTX5 High Expectations 288, this one had a unique look from the side. Attractive fronted with a huge forearm and foot, and good shape. This one went to Oklahoma to Randal and Terrell Buck for $6,000.

The Champion gilt at this year’s show was the class 4 winner exhibited by young Noah Skipworth, Texas. This gal was sired by DCMS Mohawk 24-1. She was an extra big-ribbed hog with a shot more bone and muscle and great feet and legs. She’ll get a great chance with the Hofschulte Family, Okla., at $2,750. Thanks, guys!

Connor and Cagney Utterbacks daughter of NBRPS He’s the One 15-6 was this year’s class 3 winner and Re-
serve Champion. A big-ribbed, big-bladed hog with extra muscle and femininity, she got a great home with Brock Herren from Oklahoma. She'll sure get a chance there.

Jack Rodibaugh and Sons Second Place gilt in class 4 was in the ring next. Sired by NWEI3 Impec-cable 90-9, this one was as good looking and sound as any of them. She has a huge center body and extra length of front. She got a great home with Baize Farms, Inc. of Stamford, Texas. Thanks, Russ!

Madison Hailey, Texas, had the winner of class 5. A daughter of NBRP5 Twister 27-2, this one was as long fronted as any with really good body dimension and extra shape. She's headed to the great state of Louisiana to the herd of Roland and Patricia Kuehne for $2,000. The Rodibaugh firm was back with their class 1 winner next. This young mid-September gilt was sired by BBTSS Prestige 9-2 and was shapely, sound and really correct in her angles and build.

There were lots of good gifts in the sale. Brendan Gross, Shipley Swine Genetics, Ryan Jennings and the Rodibaugh's all had popular gifts down the line. Delton Osborn, Texas, had a gilt in class 3 that proved to be very popular at sale time. A daughter of 3Days5 Back Door 10-4, this gal had a really big chest floor combined with bone and muscle. Chad Collins from Texas added this gal to his herd at the sale topping price of $4,750. Thanks, Guys!

This year’s sale was a great event. Lots of good hogs found good, new homes and will get every opportunity to make breed progress. We want to thank everyone for their participation this year. Here’s wishing you all a great spring selling pigs and getting those crops in the ground. We hope to see you all in Des Moines!

Sold to Stewarts Duroc Farm, Iowa & Schenken Genetics, Texas, for $13,000.

Reserve Champion Hampshire Boar & Class 4 Winner
1FHH4 UNBROKEN 24-1 x JM3 BUMPERCAR 2-5
Shown by H&H Hampshires, Ohio
Sold to Real McCoy Genetics, Ohio, for $2,750.

Champion Hampshire Gilt & Class 1 Winner
SRF4 SGLD THE REVEREND 6-7 x CFLK3 MADNESS 1-5
Shown by John Graber & Family, Ohio
Sold to Franklin Feeser & Wendt Family, Mo. for $6,750.

Reserve Champion Hampshire Gilt & 2nd Class 1
BOLN4 MAN AMONGST BOYS 23-3x AAHH3 TROUBLE MAKER 2-4
Shown by McGrew Showpigs, Ill.
Sold to Barber Hog Farm, Texas, for $2,200.

Premier Sire –
BOLN5 ON POINT 38-2
Res. Premier Sire –
BOLN4 MAN AMONGST BOYS
Both owned by Hi Point Genetics, Ill.
Brett Bolan, Ill., accepts the Reserve Premier Sire Award from NSR Field Representative Blaine Evans (l).
The trip to Belton, Texas, is one that I personally always look forward to. The Southwest Type Conference signifies a few things for me. It’s the start to a very busy spring baby pig sale season in the Midwest and it seems to be a show where there is time to get to meet more with the breeders. This year was no different with great weather, good conversations and fellowship with people from all over the country. Mike McCoy, Ohio, was asked to judge the belts this year. Mike brought along his good friend Jason Lackey, Texas, to assist. If you know these guys, you will understand the dynamic that was in the ring that day. They took the job very seriously, but also had fun sorting the Hamp.

The Premier and Reserve Premier Sires this year both come from Hi Point Genetics, Ill. The Champion was BOLN5 On Point 38-2 and the Reserve was BOLN4 Man Amongst Boys. Congrats to Hi Point with this pair of boars who need no introduction to the Hampshire Breed.

The Champion Hampshire boar this year was exhibited by Grimm Purebreds, Iowa. Jim’s boar was sired by JLM5 Legacy 10-1 and out of a BEB3 Tiger 9-6 sow. Jim brought a good one to Belton this year that I believe can sure do good for lots of people. This hog’s skeleton read so right to me. The angle to his shoulder and knee were spot on and he was clean jointed, good hocked and square to the ground. From the side he was a good-looking, tallshouldered hog who still had a stout head, jaw and forearm. I call his body shape and rib exceptional bold up high and pliable down low. His length of body and portions read right to do many things, be it making barrows or making gilts. Stewarts Duroc Farm & Schenken Genetics made the $13,000 investment to bring him home. Check in with Craig for semen options.

The Reserve boar this year was driven by H&H Hampshires, Ohio, with their son of 1FHH4 Unbroken 24-1 x JM3 Bumpercar 2-5. Frank’s boar was one who looked like a breeding hog. A notch bigger in frame size, really heavy boned and stout about his feature. The Unbroken son had plenty of muscle and while still being tall up front and having some look about his neck and head. Really a rugged, stout example of a Hampshire herd sire. Congrats to Frank and be sure to look this guy up at Real McCoy Sires, Ohio.

Robert Meeker, Ill., won class 3 with a NAJO5 GRUS The Game 12-5 x CDO0 Point Taken 257-3 son. There were some things about Robert’s boar that were as good as any. I liked this guy from the side and his look of balance and design was second to none. He was extended ahead of his blade, tall at the point of his shoulder and his angles laid in his skeleton right. I call him a heavy-boned hog with round body shape. Kyle & Laura Baade, Neb., took this guy home and will put him to work on their sow herd.

The class 2 winner came from Donald Love & Josh Krohn, Texas. They brought a JLS Wish Bone 10-8 x DMP2 Colibob 48-2 hog to the show. One that was young and looked a little immature at the show, but I really liked this guy’s build. Really flexible and comfortable at the surface. A good hind leg and front feet are just a couple things he brought to the table. This hog had a good look and design that was right.

The high seller this year came out of class 4 a son of KORBS The Sheriff 10-1 x JLM3 Time Traveler 16-1 driven by Payton Aldrich, Texas. The Aldrich hog did a lot of things right and wasn’t really out there in one area. He simply matched and proportioned so well. His bone matched his mass, his skeleton read right and he was killer from the side. I wouldn’t call him just a design hog because he still had plenty in terms of shape and power. Really a neat hog. Check this $17,000 purchase out at Hi Point Genetics, Ill.

The gilt show at Belton is always something I look forward to, it seems every year not only are there a great group of gilts that have been shown by junior members that are fun to look at, but it seems the breeders will step up and bring some true breeding pieces to the show. This year was no different. John Graber & Family, Ohio, brought the Champion Hampshire Gilt. John is one of those guys who everyone in the Hampshire circle knows and can sure identify the success he has had over the years. This particular gilt was sired by SRF4 SGLD The Reverend 6-7 and out of a CFL3 Madness 6-7 sow. John’s gilt was so cool in lots of areas. We talk about gilts in their working clothes and I would say this is a prime example of how a female can be so natural and still look the part to win. I call her very feminine on the front and extended while still being a power hog with lots of top and hip to match. It’s hard to make one with that look, have dimension and a bold body with a skeleton that works so well. She was the high-selling gilt on Saturday and went to Franklin Feerer & Wendt Livestock. Good luck with this one and congrats again to the Graber Family.

McGrew Showpigs, Ill., drove the Reserve Champion Gilt this year. McGrew doesn’t have a ton of Hamp sows but they are putting some together and doing a good job. This gilt was sired by BOLN 4 Man Amongst Boys 23-3 and out of a AAHH3 Trouble Maker 2-4 sow. Jill got to drive this one and what a female she was. From the side she is a gilt that will get your attention and is well designed with a deep, bold rib shape. She was an attractive gilt that I think you could mate to many different boars and get along well. Barber Hog Farm, Texas, will put her into production.

Bowen Hamps & Yorks, Ill., had the class 2 winner. Kelly’s gilt was a ECS Score 9-5 x JLM1 TCG Augusta 7-1. Kelly always brings big-bodied and broody gilts that people can take home and breed to lots of different boars without having any trouble. This gilt was no exception. A truly functional gilt with good feet and legs, quality underline and good vulva. These gilts can keep a guy in business for many years.

Brendan Gross, Texas, drove the class 3 winner. This gilt was sired by JLM3 Carry On 21-1 and was out of a GMW3 Flat Bill 1-3 sow. The Gross gilt was one of the higher selling gilts of the day and I call her a stout and
powerful gilt who had a cool look and the running gear to handle it. She was one that looked like she would be easy to mate. She had a cool combination of look while still having a stout head and jaw line. Congrats to those guys on bringing a really nice Hampshire gilt.

Out of class 4 the winner was Logan Parker, Texas, driving a daughter of IGJG5 Right On 3-7 and out of a IGJG3 Point Maker 42-1 sow. Logan’s gilt hit me like a problem-free kind of Hamp gilt that wasn’t really out there in any one area. Really basic in her build with a productive kind of look about her body and rib. This gilt was good on her feet and legs and had a nice amount of bone for a female. another nice example of a Hamp gilt you could breed numerous ways and not get in a mess.

Thanks as always to Col. Kevin Wendt, Ohio, for his great and professional job of auctioneering the Hampshire portion of the sale on Saturday. It’s always a pleasure to work with you. A huge shout out goes to the Blinn College crew for helping us both days with ring help. We always look forward to the Blinn kids helping they do such a great job and are very professional. We couldn’t do it without you. Congrats to all and good luck with your purchases.

WTX4 GOT ‘EM 14-6
Owned by Upperhand Genetics, Ind.
(Not Pictured)

Res. Premier Sire –
JMG0 FALKEN 4-7
Owned by Russell Whewell & McGrew Showpigs.
Jordan McGrew (l) and Russell Whewell (r) accept the Reserve Premier Sire Award from NSR Field Representative Mick Bellamy (center).
We were fortunate to have a record number of entries arrive in Belton, Texas, the first weekend in March. Combine a bunch of good hogs with fantastic weather and excellent facilities, and good things will happen. The Bell County Expo Center is a great place for an event the size and magnitude of the Southwest Type Conference and as usual, the event staff there did an amazing job readying the facilities for us. Thanks for all your hard work and attention to detail!

We were assisted on show and sale day by a great set of young people from Blinn Jr. College. They were incredible in assisting penning hogs on show day and working the hogs through the ring on sale day. You guys were top notch!

The Landrace show this year was judged by Mike McCoy, Ohio. Mike is one of the great young minds in our industry. He used hogs on show day that were functional, practical and yet still possessed enough of the extras to help make positive change. Thanks, Mike! He was assisted by Jason Lackey, Texas. One of the top young breeders in his own right, Jason has judged some of our national events in the past. Thanks to Jason!

The Landrace portion of the sale was very capably auctioned by Colonel Ronnie Kreis. Ronnie is widely considered as one of the best auctioneers in the country, and proves it on a regular basis at all our events. Thanks, Ronnie!

We started the boar sale with McGrew Showpigs’, Ill., winner of class 1 and Champion boar. A son of LOOF5 Call Me Crazy 9-5 this one had it all. He combined athleticism with mass, an extra heavy skeleton, true shape and just flat had “the look.” After a very spirited bidding, he will be making his new home in the great state of Texas at Dale Wilde’s for the sales top figure of $16,000. One of the good Landrace boars shown in a while. Look for Dale to do great things with him. Thanks Dale!

Russell Whewell’s, Ill., Reserve Champion was up next. Sired by JMG0 Falken 4-7, this guy was a good example of Russell’s breeding program. Correct in his build, with a big center body and plenty of muscle. Combine that with impeccable feet and legs and you’ve got a herd boar prospect. He’ll also be staying in Texas, and go to work for his new owner Brode Kessler for $700.

The Third Place boar in class 1 was exhibited by Dallas Behrends also from Illinois. This son of WTX4 Got Em 14-6 was stout, sound and has extra muscle and width. He had a littermate sister that proved to be quite popular on sale day as well. This one will be making his new home with James Earles, Texas, at the price of $700. We led the gilt sale off with Jodi Toler’s entry that had won class 2 before being named Champion on show day. This gilt had also been named Champion Landrace at the very prestigious San Antonio Junior Gilt Show a few weeks prior. A daughter of DOVS2 Bad Cat 9-8, it was easy to see why she had been campaigned so successfully. She was so good looking on the side profile, and was able to add width, muscle, mass and femininity to that. She looked like one to build a sow herd around, and Robbie Harkey, Texas, will get that opportunity at the sales top price of $5,500. Good job to all!

The Reserve Champion Gilt was the Dallas Behrends entry that we talked about earlier. The winner of class 1 before being selected Reserve Champion was another Landrace female that appeared to be able to get the job done. She was a notch more moderate than the Champion, but had a ton of muscle, width and an extra heavy-duty skeleton, while looking broody and productive. She was the second Top-Selling female at $5,250 to George Cooper, Okla. George and Ashley will definitely give her a chance.

Third in the sale ring was the McGrew Showpigs entry that was second in class behind the Champion. Sired by KORB2 Revolution 12-2, this one was as big bodied as any female in the barn. Put that extra mass and dimension on a great set of running gear and you’ve got a brood sow prospect. George Cooper made this one his second consecutive purchase. Thanks!

Carly Norton, Texas, was the exhibitor of the second-place entry out of class 1. Sired by DEWE5 Johnny Reb 10-6, this young gilt looked like she could make some gilts and barrows for her new owner. Muscular, square built and long fronted, she’ll make her new home with Darren Haseloff, Texas. This year’s event proved to me that if you bring good, high-quality stock to Belton, the buyers will reward you. We sold every Landrace gilt in the barn and averaged almost $1,800 on them. Landrace enthusiasts, put this show on your calendar for 2018!

Here’s wishing everyone a very successful spring of merchandising your pig crop. Be safe, and hopefully we’ll see you in Des Moines!

Chuck Olsen, S.D., accepts the Reserve Premier Sire Award from NSR Field Representative Michael Lackey (r).
From the Field

Michael Lackey | michael@nationalswine.com
NSR Field Representative

The weather in Belton, Texas, was absolutely gorgeous for the 2017 Southwest Type Conference. Breeders and buyers showed up in full force to support another great event. Jay Winter, Texas, had the honor of judging the Yorkshire show this year and did a thorough and professional job of working through and giving his opinion on a nice set of Yorkshires. Thank You, Jay!

This year’s Premier Yorkshire Sire went to 1BSY5 Touch N Go 1-9 owned by Upperhand Genetics, Jack Rodibaugh & Sons and Gilmer Yorkshires. The Reserve Champion Yorkshire Sire was awarded to CDO3 Power On 282-7 owned by UpperHand Genetics and Chuck and Ben Olsen.

For the second year in a row Final Drive Genetics of Shipshewana, Ind., drove the Grand Champion Yorkshire Boar. Congratulations Jordan and Katie. This son of RIY4 Gain Control 87-5 is athletic in is build, square and correct in his hock, and can go all day. This guy is square built through his chest and lower rib; has the right amount of muscle and looks like a show hog. Give Crossroads Genetics of Clayton, Ind., a call to book semen. He sold for $5,500.

The Reserve Champion Boar was exhibited by the Hofschulte Family of Miami, Okla. Their class 2 winning entry is sired by SDF5 Lit Up 21-6. This one is a powerfully-built hog that is wide and square in the lower third of his skeleton and has true muscle from any angle. He looks like a show hog and has the added extras of foot size and bone. He will make his way to Albany, Ind., with the crew from Shaffer’s Goldrush for the price of $10,000.

Kuhlow Girls Showpigs of Clinton, Wis., drove their class 4 winning entry to the ring next. He is sired by LUP14 LVS Decidedly Different 69-1. If you like Yorkshire boars that have a big forearm, have muscle and are good ribbed, then this one is for you. This guy has a great shape to his center and lower rib. He is square as he drives at you and wide as he goes away. Plus, he has a square muscle shape down his top and a big, square hip. Jim Grimm of Maynard, Iowa, paid $4,000 to take him home.

Up next was the boar that won the first class of the day. Congratulations to Shipley Swine Genetics of Newark, Ohio, for bringing out this sound, good-built son of RSY4 Buzz Saw 3-4. This hog is the kind that will not mess your program up. He looks like he will generate daughters that will get the job done. Contact Real McCoy Genetics for semen, they paid $1,250 to take him home.

We had a great set of Yorkshire females to offer this year, and the gilt that made her way to the ring first has all the pieces to be a great Yorkshire female. Congratulations to Chuck and Ben Olsen of Irene, S.D., on their Grand Champion Yorkshire Gilt. This lady is sired by CDO4 Surge 294-5, and a lady she is. She is feminine in her look, square in her build, soft in her rib and sound. This one looks like a show gilt and a brood sow prospect. She will be a great addition for Country Market Farms of Greentown, Ind. They paid $4,100 to take this lady home.

Montana M Day of Mullin, Texas, was up next with his gilt that wins the second class of the day. This daughter of CDO3 Power On 282-7 is designed awesome. She is tall fronted, feminine and pliable in her rib. She sold for $1,800 to Clarence and Mary Schmidt of Center Point, Texas.

Kilmer Swine Farms Inc. of Monticello, Ind., made their way to the ring next with a daughter of DPK5 Old School 18-1. The best way I can describe this gilt is basic – She doesn’t overpower you in any one area, but she has no major holes either. She is a basic Yorkshire female that has the ability to make a great sow. She sold to Ricky Lyons of Mays, Fla., for $1,400.

The class winning entry from Class 4 made her way to the ring next, driven by Shipley Swine Genetics, Ohio. This daughter of SDH4 Close Call 8-1, is square at her knee, wide chested and has a great shape to her center body. She sold for $1,300 to Tim Armour of Palestine, Texas.

Ron Kreis, THANK YOU, for a job well done on the block. This event is not an easy task to pull off; it takes a lot of help from a lot of people. Thanks to all of you! I would like to offer a special THANK YOU to the crew from Blinn College for all your help, You guys did an AWESOME JOB! I wish you all the best of luck with your spring sales. See you all in Richmond in April.

</table>
No matter what show it is, there is always a huge crowd gathered around the ring to watch the crossbred show. The 2017 Southwest Type Conference was no exception. Adam Beck of Clayton, Ind., had the task of sorting this high-quality crossbred show. Adam, great job! It is always a pleasure to see a true stockman that has a passion for good hogs sort through a set.

Trey and Jeff Stewart of Wisner, Neb., drove the Champion boar and class 5 winner. This son of No Way is square, true in his rib and as you study his chest floor, he is wide and correct at the base of his rib, opens into a adequate center body and has plenty of muscle shape down his top and going away from you. He is big footed, good boned and flexible! You can’t draw a picture of one that is more correct in terms of balance and design from the side. He is the ideal size, that I hear everyone talking about, for winning show hogs in the years ahead. He will now call Clayton, Ind., home and work for Crossroads Genetics and Steve Cobb and Family, Ark., for the price of $80,000.

Desert Showpigs of El Centro, Calif., exhibited the Reserve Champion Boar. He is sired by Cowboy Swag. Their boar is a great representation of one that will compete in 2017. He is unique in terms of color and has a great build from the side. He is powerful when studied from the ground up and he is built square and honest at the base of his ribcage. This guy has a great shape to his back and muscle from behind. On the move he is sound and flexible. He will go to work for Michael Tatson in Harper, Texas, for the price of $10,000.

Next up was the winning entry from class 4 exhibited by Galt Farms of Spanish Fork, Utah. This guy is sired by Deep South. If you are looking for one to use on heavy-muscled pigs this spring, and we’ll see you at the sales. have a better look from the side, then this guy is for you! He is about as good as you can make one from the side. He is extended up front, tall shouldered, level hipped and sound. He sold to Dale Partin of Pridddy, Texas, for $600.

Next in the ring was the second-place entry from class 4 exhibited by Diamond V Showpigs of Adams, Minn. He is a son of Artic Blast. Brent’s boar is moderate in his frame, square driving at you and opens into a huge rib cage. He squares up behind his blade with true muscle shape, is thick and square in his hip and is wide and dimensional through his lower ham. If you are looking to add bone and mass in your program, call Todd Stevenson of Hamlin, Texas. He paid $20,000 to take this one home.

Austin Joostberns of Dorr, Mich., made his way the auction next with a boar that won class 3. He is a purebred Hampshire sired by Harbaugh. This boar is tall fronted, good looking, square behind his blade, maintains good shape down his top and has a big hip. He sold to Heartland Sires LLC of New Matamoras, Ohio, for $1,500.

The Crossbred Show at the 2017 SWTC had some really good breeding hogs that will make a difference. Ronnie Kreis, as always thank you, for a job well done on the auction block! Again a HUGE THANK YOU to the crew from Blinn College who helped in the ring all day, one of the best ring crews we have ever had help us, you guys are AWESOME! Good luck with selling pigs this spring, and we’ll see you at the sales.

Transfer the PEDIGREE!

A pedigree is more than a piece of paper – it’s your word. It’s a bond that says your breeding stock is a superior product, backed by quality genetics and predictable performance. So, after a sale, ensure that you continue that bond with your customers. Transfer your pedigrees in a timely manner. Not only does it record a history of official ownership, but it guarantees customer satisfaction and just might set the tone for repeat business.

For any questions, please call NSR at 765.463.3594 or visit nationalswine.com.

America's Premier Youth Livestock Magazine since 1980 serving the Youth and those involved with the Junior Livestock Show Industry. With no added costs we'll advertise your cattle, goats, hogs, lambs, show supplies, feed or trailers - whatever you have to sell we'll get the word out to bring in the buyers. Besides our magazine we can also put together your brochures. Give us a call for all your advertising needs 806.499.3749.

24 hours a day / 7 days a week -
365 days a year since 1980 -
on the internet and in our publication.

Nationwide with subscribers in 45 states, Canada and Mexico. Free distribution to all major Livestock shows, numerous state fairs and dozens of jackpots and sales.

Because you want to spend your hard earned advertising dollars with the BEST! It's a smart move to advertise with the Purple Circle - we get the job done for the best price! The Purple Circle serves as a showcase, a public arena, from which people from coast to coast can promote their Livestock and products and to acknowledge 4-H and FFA exhibitors from other areas of the Country. You'll also keep up to date with the latest trends and find what you are looking for by subscribing to Purple Circle.

A big thank you to Jim Grimm and Chuck Olsen for purchasing our class-winning Yorkshire boar! We are humbled to have two of the greatest “Hall of Fame” Yorkshire breeders show confidence in our program! This guy was the first son of our herdsire Decidedly Different 69-1 ever brought out to a national event. Contact Jim at 563-920-7590 to inquire about semen from “Outsider”.

Another big thank you to RAR Genetics for their purchase of our class-winning Duroc boar! This son of High Rent was the youngest hog at the show, easily winning class 1 with his trendy look! We’ll be using him a bunch in our program! Contact RAR Genetics at 319-269-0097 to inquire about semen from “Eviction Notice”.

We’ll see you at World Pork Expo!

Like us on Facebook and go to our website to check out our sale dates!

For more information visit nationalswine.com/njsa

Becoming a member of the NJSA allows you the opportunity to travel and compete in shows across the country. The NJSA provides the perfect chance to meet new friends that have the same interests as you - showing and raising purebred hogs! Another great reason to join the NJSA is to improve your leadership skills while doing things you enjoy.
What is your favorite stock show memory?: There are so many great memories it’s hard to name just one. If I had to pick one it would be the 2015 NJSA Southwest Regional. Abi’s look of calm elation on her face after being named Champion Bred and Owned Duroc Gilt will always be etched in my mind.

Best place you’ve ever eaten while at a show?: We love trying all the local eating places in the Belton area when we attend the Southwest Type Conference. So many choices!

Funniest/craziest/strangest thing that’s ever happened to you at a show?: 2014 NJSA Southwest Regional. While trying to load and leave at 2 a.m. Abi’s barrow got into the lagoon and didn’t want to come out. At 4 a.m. I got a speeding ticket [the full story cannot be printed here]. After driving for 10 hours and showing, the restaurant lost our food order at 9 p.m. We finally get to hotel and to say it was bad would be an understatement. We moved the next morning. Coming home, we have a trailer flat in Memphis in road construction. Get off to change it but can’t get back on I-40. End up on Beale Street at 1 a.m. pulling a load of showpigs. That was an unforgettable trip!

What is the most valuable lesson you hope Abi learns by showing livestock?: To always work hard, do your very best to prepare and even though you may not be successful that doesn’t mean you give up. This is a concept that is lost on too many people today.

What do you enjoy the most about watching Abi show?: What I enjoy the most is seeing how she’s grown from that precocious three year-old to now a 17 year-old with a true passion, dedication, and commitment for whatever she does.

What do you do to prepare at home before you head to a show?: We fill up feeders and try make things as convenient as possible for one of my brothers who feeds for us while we are gone. We also try to schedule (if possible) farrowing, weaning and breeding around the show schedule.

What advice do you have for other show dads?: Like the Kenny Chesney song “Don’t Blink”, savor every moment with your kids. It doesn’t take long and before you know it they’re grown.
ENTRY INFORMATION

- Entry fees for all entries must accompany the respective entry form.
- All entries must be postmarked by May 17, 2017.
- All late entries will be charged double the regular entry fees. All entry fees are non-refundable.
- The NSR reserves the right to close entries due to pen space limitations any time after the printed deadline.
- All senior exhibitors must be active members of the NSR or must pay the $75 non-member exhibitor fee. An active senior member is age 22 and OVER, paid annual dues and recorded at least one litter in the 2017 fiscal year.
- Participants age 21 and UNDER must pay a $15 junior participation fee.
- All pedigrees for purebred breeding animal entries must be recorded by June 16, 2017 or an additional $25 rush fee will be charged.
- If an exhibitor has an NSR account that is past due, funds from the sale of their animals will be applied to their past-due account.

ANIMAL REQUIREMENTS

- All entries must be ear notched using the official NSR system (starting with number 1 in January and again in July of each year).
- No purebred entries will be eligible to show or sell without a registration certificate.
- Purebred breeding animals must have been farrowed on or after Dec. 1, 2016.
- Purebred breeding animal classes will be divided as equal as possible by farrowing date.
- Crossbred boar classes will be divided by weight.
- CROSSBRED BOARS: A documented stress test must be presented at check-in. Stress status of boars will be listed in the show and sale catalog.

DNA STRESS STATEMENT

- No known stress positive or stress carrier Duroc, Hampshire, Landrace or Yorkshire animals will be allowed to be exhibited or sold at any NSR-sponsored event.
- Such warranty is, however, solely that of the seller and not that of the American Landrace Association (ALA), American Yorkshire Club (AYC), Hampshire Swine Registry (HSR) or the United Duroc Swine Registry (UDSR).
- The ALA, AYC, HSR and USDR assume no responsibility or liability in connection with such warranty by the seller.
- If any NSR purebred animal sold at this conference is found to be a carrier of the stress gene, the purchaser has the right to receive full refund of the purchase price from the seller.
- DNA testing for the stress gene must be done within 60 days of the sale date and all costs associated with testing for stress must be paid by the purchaser. The seller has the right to review the test results and the right to re-test the animal at a laboratory of his/her choice.
- Cost associated with re-test by the seller is at the seller’s expense. There will be no refund of NSR commission from stress-carrier animals.

BREEDING ANIMAL SALE

- A minimum of 60% of the number of each sex (boars and gilts) shown will be selected for the sale. These animals will be selected with no set number selling from any single class. Animals not selected for the sale can be consigned to the sale for an additional fee of $20 per head; this must be done by the conclusion of the show. If the animal does not sell, the fee is forfeited.
- All animals selected and cataloged for the sale MUST go through the auction. Sale commission will be 15% for all animals. If an animal that is selected and cataloged for sale does not go through the sale ring, the exhibitor will be banned from exhibiting at NSR events for one year and will be charged 15% of the average selling price of their respective breed sale. This amount must be paid before reinstatement will be allowed. The exception to this rule will be if an animal has become injured or ill and is inspected by an NSR staff member prior to the sale.
- The NSR acts only as the agent between buyer and seller. If proper payment is made by the buyer in a timely manner the NSR will make settlement with the seller in approximately 30 days after the sale.

PUREBRED BREED ELIGIBILITY REQUIREMENTS

- By entering any purebred hog in the Summer Type Conference, the owner warrants that the hog meets specific breed requirements.
- Such warranty, however, is solely that of the seller and not that of the HSR, ALA, AYC and USDR and the HSR, ALA, AYC and USDR assumes no responsibility or liability in connection with such warranty by the seller.
- For information on NSR breed eligibility requirements, please visit http://nationalswine.com/pedigree_services/breed_eligibility.php.
- If any Hampshire, Landrace or Yorkshire animal sold at the Summer Type Conference is found to be a carrier of the color gene after being tested through the procedures approved by the HSR, ALA and AYC, the seller agrees that he/she will promptly refund the full purchase price to the buyer. There will be no refund of NSR commission from animals that are carriers of the color gene.
1. EACH ANIMAL ENTERING THE KENTUCKY EXPO CENTER MUST BE LISTED ON AN OFFICIAL, INTERSTATE CERTIFICATE OF VETERINARY INSPECTION (CVI) ISSUED BY A LICENSED, ACCREDITED VETERINARIAN. THIS INCLUDES DELIVERY ANIMALS. LOADS CONTAINING SWINE WITHOUT ALL BELOW MENTIONED REQUIREMENTS WILL NOT BE GRANTED ACCESS TO THE KENTUCKY EXPO CENTER FAIRGROUNDS.

A. Multiple animals may be listed on one original CVI. Photocopies of CVIs can be made during show check-in for each animal after the show veterinarian has approved CVIs upon arrival.

B. CVIs must be issued on or after Friday, June 9, 2017.

C. PERMIT REQUIREMENT: Exhibitors from outside of Kentucky that are entered in the Summer Type Conference MUST get a permit number before coming to the show. To obtain a permit number, a licensed, accredited veterinarian must call the Kentucky State Veterinarian’s Office at 502-782-5901 OR by going to https://www.kyagr.com/USAherdOPS/Login.aspx. (This is only required for OPEN Show entries originating from outside of Kentucky)

2. CVIs MUST BE ISSUED ON OR AFTER FRIDAY, JUNE 9, 2017, WITH THE FOLLOWING INFORMATION

A. Name and 911 address (location of swine, No P.O. Box) of consignor; consigned to:

   - NJSA Summer Spectacular or NSR Summer Type Conference
   - Kentucky Expo Center, 937 Phillips Lane, Louisville, KY 40209-1398

B. ALL SWINE being exhibited at the NJSS and STC MUST be officially identified with an official, federally approved ear tag. The animal’s ear tag ID must be listed on CVI. For more information on federally recognized ear tags, visit nationalswine.com/shows/ear_tags.php.

C. Each animal shall be individually identified by ear notch and ear notch MUST be listed on CVI

D. Health status of animal, including dates of required tests and vaccinations must be listed.

E. A premise ID number MUST be included on CVI.

F. The cell phone number of your veterinarian who issued the CVI MUST be included on the CVI.

G. ALL CVIs MUST CARRY THE FOLLOWING STATEMENTS:

   *Farm or origin of the swine:
   1. Has not had pseudorabies or swine dysentery in the last 12 months
   2. Has not had any clinical signs or diagnosis of TGE or PEDv in the last 60 days
   3. Feeds no raw garbage and uses no PRV vaccine
   4. Is not under quarantine for any disease condition
   5. Has not had vesicular stomatitis diagnosed within 10 miles of farm or origin in the last 30 days

3. REQUIRED TESTS: please advise that test requirements vary between STC (open show) and NJSS (junior show) entries.

A. PSEUDORABIES (PRV) TESTING: ALL OPEN SHOW ANIMALS ENTERED IN THE SUMMER TYPE CONFERENCE MUST be individually tested for PRV on or after Friday, June 9, 2017, UNLESS animals come from a PRV-qualified herd.

   1. All official identification of animal (sex, ear tag and ear notch) needs to be included on the pseudorabies test chart.
   2. Animals must test PRV-negative with all results on the dated CVI.
   3. The official PRV test chart must be provided along with your CVI.
   4. Either the ELISA (gB ELISA), ALA or S/N tests are acceptable. Differential ELISA (g1 ELISA) test will NOT be accepted.
   5. If OPEN SHOW ANIMALS come from a PRV-qualified herd, individual testing of each animal is not required. In this case, the PRV qualification numbers must appear on the health certificate and the most recent quarterly herd test date (month, day and year) must be stated on health certificate.

   B. BRUCELLOSIS TESTING: ALL OPEN SHOW ANIMALS ENTERED IN THE SUMMER TYPE CONFERENCE MUST be individually tested for brucellosis on or after Thursday, June 9, 2017, UNLESS animals originate from a validated brucellosis free herd.

   1. Animals must test brucellosis negative with all results on the dated CVI.
   2. If the herd of origin is brucellosis validated, the validation numbers must appear on the CVI and the most recent quarterly herd test date (month, day and year) must be stated on the CVI.

   *Although the state of Kentucky does not require swine to be individually tested for PRV and brucellosis for entry, some states have additional testing requirements for animal reentry.

4. JUNIOR SHOW ANIMALS (NJSS BARROWS AND GILTS NOT BEING EXHIBITED IN OPEN SHOW):

A. PSEUDORABIES – NJSS ANIMALS ONLY (JUNIOR SHOW BARROWS AND GILTS): Since all states are Stage 5 of the Pseudorabies (PRV) eradication program, no testing is required for barrows and gilts that will ONLY be exhibited in the NJSS (JUNIOR SHOW).

   1. This ONLY applies to barrows and gilts that will NOT be exhibited in the STC (open show).
   2. If the animals come from a Pseudorabies qualified herd, it is required that this number and the last test date appear on the health certificate.

   B. BRUCELLOSIS – NJSS ANIMALS ONLY (JUNIOR SHOW BARROWS AND GILTS): All NJSS (JUNIOR SHOW) animals must originate from a Brucellosis Class “Free” state or be from a validated brucellosis free herd with the validation herd number and test date on certificate or be negative tested for brucellosis after June 9, 2017.

   1. Swine tested for brucellosis must show the date blood sample was drawn (month, day and year).
   2. If the herd of origin is brucellosis validated, individual testing of each animal is not required. In this case, the brucellosis validation numbers must appear on the health certificate and the most recent quarterly herd test date (month, day and year) must be stated on health certificate.

   *Please remember, gilts exhibited in the STC (Open Show) MUST be tested negative for PRV and brucellosis, UNLESS they come from a qualified, validated herd in order to meet entry requirements for potential buyers.

C. VACCINATIONS:

   1. All breeding swine coming to the show MUST be vaccinated against leptospirosis (6-way) including bratislava and erysipelas.
   i. The complete date of vaccination MUST be listed on the health certificate. Market animals should not be vaccinated.
   2. It is strongly recommended that breeding animals are vaccinated for swine influenza.

D. UPON ARRIVAL AT KENTUCKY EXPO CENTER:

   1. All animals and original CVIs will be inspected by show veterinarian and show staff prior to unloading.
   2. Exhibitors may be asked to sign an “Exhibitor Affidavit for Kentucky Swine Fairs & Shows.” This will be provided to exhibitors at the show by Kentucky Department of Ag Inspectors prior to unloading.

   *In some instances, these requirements are in addition to the state of Kentucky regulations. However, they are necessary in meeting other state requirements for purchasers of open show animals through sales as animals are reconsigned to new destinations.

INNOVATIVE SOLUTIONS TO GET YOU IN THE CHAMPION DRIVE

IT’S NOT THE WILL TO WIN THAT MATTERS... EVERYONE HAS THAT.
IT’S THE WILL TO PREPARE THAT MATTERS.
PAUL “BEAR” BRYANT

TRUE NORTH TECHNOLOGIES

NO VFD REQUIRED. VETERINARIAN DEVELOPED AND RECOMMENDED.

Our patent pending products have been proven by research, field trials, in commercial operations, and some of the best show barns across the country for nearly a decade.

TrueCool nutritionally supports animals during times of heat stress and is a great addition to today’s antibiotic-free show pig diets as it is all natural and has no withdrawal.

TrueGlo the original veterinarian developed, proven, and recommended product that supports a healthy immune system, digestive tract, appetite, and endurance.

TrueTrac over 2 years of premarket research and development to nutritionally support healthy joints and hooves.
